

THE BRIDGE

Linking Practitioners of German Biological Medicine

Volume 14, Issue #4, April 2018

Tuesday, 17 April 2018

Dear Colleagues, Friends and Supporters of OIRF,

➤ Welcome to Volume 14, Issue #4 of "The Bridge" newsletter!

Welcome to the fourth Issue of "The Bridge" for 2018. This issue features an excellent research article from OIRF Board of Advisors member, **Dr. Michael Galitzer** guiding us to various methods for getting rid of the fear of a cancer diagnosis.

Next month's Issue #5 will feature our first article from OIRF Board of Advisors member, **Dr. Robert Cass**. We're also seeking permission to reprint some articles by **Jürgen Aschoff, MD** on **Geobiology**.

➤ Please see the 2018 Events Calendar on Page 19 of this Issue and also on the [Events Page](#) of our website where you will find the current conference listings. Watch for announcements of several other conferences and seminars where you will find OIRF in an education or exhibit booth. Many events for 2018 have been fully scheduled and we look forward to participating in some of them!

Updated the event/seminar information includes the current 2018 dates for **Dr. Simon Yu's AMA training in St. Louis, MO** and the **English MORA Power Week training** at Med-Tronik in Germany.

➤ **Conference Reminder Notices:** (see details Pages 2, 10, and 18-20 in this Issue):

➤ **AMA (EAV) hands-on workshop** for MD's during April 27-29 and August 24-26, 2018 sponsored by **Dr. Simon Yu** of **Prevention and Healing** in St. Louis, Missouri. **Note:** Dr. Yu's AMA training and boot camp session has recently been opened to practitioners with alternate certification. It focuses on EAV-type testing for parasites and dental problems.

➤ **English MORA Power Week training** at Med-Tronik in Friesenheim, Germany, September 10-15, 2018. Contact OIRF or Med-Tronik for registration and details.

➤ The organizers of the Baden-Baden **Medizinische Woche** have finalized the dates of their annual congress, but will not publish their active lecture schedule until May (later and later every year). To take advantage of their schedule and lecture series, following here are the dates of our **OIRF Germany Tour #45**:

- Medicine Week: October 31 through November 4, 2018
- OIRF Germany Tour #45: October 30 through November 5, 2018

This year, our theme or focus of interest will be **Complementary Diagnostic and Assessment Methods**. We are looking at those methods which are "real" and individualized as well as explanations about the effectiveness of causal diagnostics versus the now popular "global" diagnostics based on statistical analysis.

We are pleased to announce **Dietrich Klinghardt, MD** as our **Keynote Speaker** for this 45th Biological Medicine Group Tour to Germany. Dr. Klinghardt is a highly respected and well received participant of the annual Medicine Week Congress program, and we felt he would be able to speak (in English of course) in greater detail and without the North American constraints during our private lecture schedule. As well as our keynote speaker, here are some of the anticipated special features for Tour #45!

- **Clinic Lecture:** Integrative Cancer and Lyme Disease specialist – **Dr. Friedrich Douwes***
- **Clinic Lecture:** Biological Medicine specialists using multiple modalities – **Dr. Uwe Reuter*** and **Dr. Ralf Oettmeier***
- **Clinic Visit:** A private Biological Medicine Clinic in Frankfurt, Germany
- **Advanced Medical Systems (AMS):** Pulsed Electromagnetic Field Therapy – **Dr. Frank Beck***
- **Pharmacy Lecture:** RNA Therapy (Regeneresen®) – **Dr. Georg Stommel***
- **Alfa Thermodiagnosics:** Regulation Thermography – **Dr. Dan Beilin**
- **Heart Rate Variability** (According to Nilas) – **Dr. Jürgen Aschoff**
- **Photon Resonance Test (PRT)** (According to Schimmel) – **Ute Engelhardt** and **Aina Sylvester-Schimmel**
- **Psychosomatic Energetics (PSE):** – **Dr. Reimar Banis**
- **MBA, ElectroAcupuncture According to Voll (EAV):** – **Knut Henning**
- **Med-Tronik:** BioResonance Therapy and Diagnostics – **Nuno Ruivo** and **Peter Mahr**
- Evening lectures, training sessions and discussions with attending OIRF directors and advisors

* **Note:** Some of the above lectures are sponsored English language lectures that are part of the Medicine Week Congress program itself. The OIRF group has been invited to attend.

See full details here for the [Germany Tour](#) and [Register](#) early to ensure a place in this exclusive program – attendance is limited this year! You can whet your imagination by joining us in our [Report on Tour #43](#).

What others say about these tour programs:

Dear Carolyn

Can I thank you once again for the wonderful Germany tour you arranged? It was one of the most informative weeks I have ever spent in Germany.

Recently, I have been reviewing the notes I have taken on OIRF tours going back twenty years. The amount of really useful information I have learnt, most of which I still use in my daily practice is truly staggering.

Thanks to you all once again. With Very Best Wishes,

Dr. Robert Jacobs, UK

(Dec. 2017 after Tour #44)

➡ OIRF has begun the process of updating and revising our website . . . Yes, we did that yearend thingy but it seems that our overall site is generally outdated. Carolyn has been looking at various newer website designs and has taken on the job of making some of the changes.

Ours is an extensive site with nearly 100 web pages of information that has been online in one form or another for at least twenty years, and while we completed an extensive re-organization and updating several years ago it is definitely time to “re-study and re-submit” as they used to say with the old Extension Training Program for Acupuncture.

We will definitely maintain our bridge logo and masthead – those are familiar old friends – but we will aim for a more modern look with a smoother and easier accessibility. [*I’ve been instructed that we need more pictures and to stop being so wordy – harrumph – Carolyn wordy?!*] I know that everyone is looking stuff up on their smartphones, and we will not likely end up too compatible with that kind of format since there’s just too much information that we want you to access.

Needless to say, this is a bigger project than our usual yearend updates and will be completed in sections over the next few months. We ask your patience should you experience any glitches or disruptions – and if you see any little slipups or mistakes please let us know so that we can get them all fixed up.

➡ **Advance Notice:** We have just been advised by **Med-Tronik** in Germany that the **MORA Super Plus** has been redesigned to include the new mandatory ODU plugs (as opposed to the old BNC connectors) and is again available for purchase. For the MORA Super users who have delayed upgrading to the computerized MORA Nova model this comes as welcome news.

This tried and true classical MORA BioResonance model (I suppose in today’s lingo that makes it Version 1.2) as developed by the original engineer **Erich Rasche** has been utilized in daily practice around the world for more than twenty years.

The MORA Super Plus is registered with Health Canada as a EN ISO 13485 Class IIa Medical device, and we have already begun the process of re-adding the information about this classic device back onto our website. See a few details in this issue and be sure to consider this tried and true MORA model with your next device purchase. Pricing, order and delivery information is available through OIRF office at 1-800-663-8342.

➡ Note that OIRF is now able to accept your credit card payment directly in either USA or Canadian dollars and all pricing has been adjusted to reflect both currencies. Thank you for your continued business and support.

➡ I invite all of you to maintain your email or print subscription to “The Bridge” newsletter. All 2018 issues of “The Bridge” will be sent to you by email and then published on our website. **Access is open to all.** Follow this link to get your PDF print copy of “The Bridge” Volume 14, Issue #4.

Further new and cutting-edge articles from our prestigious Board of Advisors and Directors as well as more of Carolyn’s translations of articles from current German journals are underway for future Volume #14 issues of this newsletter. Issue #5 for 2018 should arrive in your Inbox during mid-May and will feature a variety of practical and educational articles.

No word in the English language elicits as much fear as CANCER.

By Michael Galitzer, MD

© Copyright 2018, Dr. Michael Galitzer, California USA

If our parents had cancer, then the traditional thinking is that it is genetic, and we are thus susceptible. Yet my parents smoked cigarettes, ate red meat daily, and did not exercise. If we have a pain in the body that does not go away in a few days, we worry about cancer. If it takes longer than usual to get over a cold or flu, we worry about cancer. There is a global consciousness of fear about cancer that is interfering with our intention to live healthfully to 100 and beyond.

The best way to get rid of this fear is for all of us to recognize that more and more people can beat cancer. With cancer we can live a healthy life for 20 years or longer. **And most important, there are steps that we can all take to prevent cancer from occurring.**

Let's first address cancer prevention. **We have to prevent tissue acidity, minimize toxin accumulation within the body, optimize hormone levels,** find our purpose or dream, practice gratitude and mindfulness, and accept and be happy with who we are. Lifestyle issues that contribute to tissue acidity include excess alcohol, coffee, soft drinks, sugar, cigarettes, lack of exercise, and eating too much animal protein. Vitamin D levels in the blood should be optimal. The three major hormones are insulin, thyroid, and adrenal hormones. We want to have low levels of insulin and optimal levels of thyroid and adrenal hormones (Cortisol and DHEA). Happiness occurs when we have both meaningful work and meaningful relationships with others and with nature.

The three key toxins are heavy metals, pesticides and viruses. Mercury fillings need to be removed. Mercury is not only a toxin, but in the presence of saliva, the fillings create electrical currents that get amplified by computers and cell phones, overriding the electrical currents in the brain. Selenium should be taken daily until all fillings are removed. After removal, one can do gentle chelation with chlorella, cilantro, and glutathione. It is best to avoid tuna and swordfish, for they are deep feeding and concentrate the mercury.

Pesticides are a huge issue, as we tend to eat out a lot, and are also exposed to GMO foods. We must shop for organic foods. **We need to stimulate the 3 key drainage organs of the body – liver, kidneys, and lymph systems** – with homeopathy, herbs, juicing vegetables, acupuncture, and PEMF (pulsed electromagnetic fields), before doing detox therapies such as colonics, chelation, and infra-red saunas. **And drinking energized water may be as important as eating organic.**

Viruses are best treated with oxidative therapies, such as ozone, intra-venous UV Light, and high dose IV Vitamin C.

So, now for example we have a patient with colon cancer who has just been diagnosed. He/she is frightened, having just been told to have immediate surgery, which will be followed by chemotherapy. Their focus and that of the medical profession is to immediately cut out the cancer cells, and then poison any remnants of cancer with chemo. The cancer has been growing for years, so holding off on surgery for a month in order to strengthen the body is much more prudent. Your health will improve and the outcome will shift in your favor. Since cancer can only exist in an acidic body with high levels of toxins and sub-optimal levels of the adrenal hormones (cortisol and DHEA), the next step is to reduce tissue acidity and toxicity, get intra-venous Vitamin C, to strengthen the sluggish liver and the adrenals, and improve nutrition by eating less animal protein and avoiding refined sugar. *Then* do the surgery. So beating cancer is like winning the tug of war – the energy of the cancer vs. the energy of the body.

Traditional medicine says that all that is needed to win the tug of war is to kill the cancer. But the therapies involved – surgery, chemotherapy, and radiation therapy – weaken the body.

Sometimes it is necessary to do both, especially with a breast cancer that is Estrogen Receptor positive. The cancer patient needs to see both an oncologist and an expert in integrative medicine, who can focus on getting the patient healthier through nutrition, vitamins, enzymes, herbs, homeopathy, IVs, detoxification therapies such as colonics and heavy metal chelation. By working with both types of doctors, the results will be superior, and you will most likely win the tug of war.

When the cancer patient decides to have chemotherapy, we need to respect that decision. The goal here is to keep the body as strong as possible. **Chemotherapy kills cells – cancer cells and healthy cells – and this cellular debris must be eliminated.** The liver is the main organ that is affected. Liver drainage with herbs, homeopathy, juicing vegetables, lemon in your water is essential. Since chemotherapy is frequently given every 3-4 weeks, it is important to get Intra-venous vitamin C on the weeks between chemotherapy. Additionally, proteolytic enzymes taken on an empty stomach, one hour before lunch and dinner, and at sleep, act as Pac-men, eating up the cellular debris.

The cancer patient does not have enough of the red vibration in his/her energy field. The FIT 915 light glasses by delivering red light at night would be a great energy tool. **Eating Red Foods** such as red apple, raspberries, cranberry, radishes, red potatoes, beets, red beans, lentils, pomegranate, and hibiscus tea are beneficial.

From time to time, all of us have cancer cells in our bodies, yet our bodies are able to clear them, and prevent tumor formation. It is the cancer stem cell, while accounting for only 2% of the tumor mass, that fuels the growth, and causes tumors to metastasize. Cancer stem cells are not killed by chemotherapy. And what is the origin of the cancer stem cell? That is the million-dollar question. Is it a renegade cancer cell, or is it the result of our body's naturally occurring stem cell (normally designed to promote tissue regeneration) that attaches itself to a cancer cell? The immune system does not attack the cancer stem cell because it views the stem cell as "one of its own", and, therefore, a non-foreign part of the body. Can this process be prevented?

The answers most likely involve the following:

- **Nutrients that adversely affect cancer stem cells are lycopene (in tomatoes or as a supplement), green tea, curcumin, and blueberries.**
- The pineal gland in the brain is known to control rhythms in the body – day/night sleep cycles, menstrual rhythms, and also sexual development. My research has shown that weakness in the pineal gland, causes a bone marrow stem cell to attach to a cancer cell, resulting in a cancer stem cell. If that is the case, then therapies that stimulate the pineal gland such as melatonin at sleep, light therapy, homeopathic remedies, sound and music therapy, and specific meditations will all be useful.

Thus, think of the pineal gland as the air traffic controller of the body, signaling for the planes (stem cells) to land at the right airport (tissues that are in need of repair and regeneration). When this signaling process goes awry (pineal gland weakness), the plane (stem cell) lands at the wrong airport (cancer cell). Could this be the missing link?

The **UBS 315** from Medical Electronics

**Energize water with this high tech miniature unit
at your place of work or while travelling**

Starting the day full of energy

All kinds of healthy teas whether it is herbal tea, green tea or white tea (which is the most beneficial) all develop a significantly better biological effect. This application is also very successful in improving the blood flow. Using a special blood test, dark field microscopy, the positive effect on the red platelets (erythrocytes) can be very graphically displayed.

See full details at www.oirf.com/pdf/UBS_315.pdf

It is important to drink water during the day

There have been many reports about the importance of drinking water. As mentioned on previous pages there are vast differences regarding the water qualities which are available to us. Not everyone is fortunate enough to live next to a natural spring. Very few can afford glacier water. Based on biological evolution humans are made exactly for this type of water. Nature does not know about water pipes or plastic bottles. However, with the **UBS 315** unit it is possible to restructure this biologically lifeless water. Structured water is a special biological power source.

Photons carry information

Photon penetrated water or other liquids carry the bioenergetic information before they are consumed. Bio energetic information can therefore be transferred to oneself without having to swallow anything. This is in particular a great advantage when bitter herbs or similar are involved. Like the ingredients of red wine (OPC) are active all the time while the glass is standing in front of you. Also crystals, or other effective information carriers like plant extracts dissolved in water, show remarkable results when used with the **UBS 315** unit.

And, as highly recommended by Dr. Michael Galitzer see the following information on the **FIT 915 BioPhoton** light "glasses" on the following pages!

The FIT 915 from Medical Electronics

Light: Scientific research results confirm the importance of correct light conditions

Healthy with light

The correct light at the right time; this leads to an outstanding potential of until now unused possibilities in energetic regeneration. Discoveries in the areas of photo-biology and chrono-biology reveal new and easy to use technologies within a wide ranging spectrum with effective application of light in a bio-energetic therapy.

Light: a phenomenon which has occupied human beings since ancient times. It is only now that we understand the enormity of the biological processes which are connected to this energy but which are still not fully understood. Only slowly is natural science recognizing how extremely important the interaction between biological processes in our bodies and the existence of the correct amount of light together with the correct spectrum range at the right time. In nature nearly all biological processes are synchronized by the light-dark phases of the natural sunlight.

White light, an important contributor to our health

Healthy and fit with correct light

Is it possible to be put into a good mood and feel fit by pressing a button? Most probably! Our mood and health are primarily controlled by hormones. These hormones are mainly controlled by light which we absorb with our eyes. This knowledge opens up untold new possibilities to positively influence the body. New technology is making this possible now.

Astonishing results based on the study of light are gaining more and more importance. The natural science branch involved in researching this field is called chronobiology. Practical understanding in this field teaches us about the significance of the correct light at the right time. Important hormones for our health and well being are endorphins, dopamine and serotonin which are controlled by light. Their existence is the immediate reaction to the absorption of natural light or light with equal physical properties. The intensity and the spectrum play an important role. A specially important part of the daylight spectrum is the large proportion of blue light (450-480 nm).

Red light regenerates and repairs holistically

Optimal wave length for holistic regeneration of all eye functions.

Scientific studies confirm that red light with a wave length of 630 nm offers maximum benefits for tissue regeneration. This wave length is also preferably used in photobiology to stimulate holistic body healing effects. Maximum depth penetration and optimal absorption guarantees the best possible treatment results, even in deeper skin tissue. This ensures that the eye itself and all linked supply systems are benefitting from the healing energy of the photons.

The brain needs the information provided by light to be able to cope with numerous tasks

The light absorbed by our eyes is used by the brain for various tasks. Only about 15% of the light which the eyes absorb is used for orientation purposes. The remaining 85% are used in various parts of the brain. Circulation, metabolism, blood pressure, hormones and a whole range of other important functions are directly or indirectly dependent on the light absorbed by the eyes.

Sunlight is variable and continually changes its brightness and color combination

Starting at sunrise and through to sunset the sunlight spectrum arriving on the earth's surface is constantly changing. Since the beginning of time this dynamic light has nurtured all life on this earth. All living organisms have adjusted to this natural biologic rhythm and accepted it as the pacemaker for their inner life rhythm. Accordingly the hormone production is adjusted to the relevant time in the day because of the dynamic of light. Control of the complete hormonal balance can be lost if this dynamic is missing (night work/shift work).

Artificial light sources create biologically unfavorable light

Living areas and work places which are illuminated by artificial light sources induce a raft of problems of the inner synchronization to the outside world. Important wave lengths are missing in this light and it has a permanent unnatural color combination and brightness. The light flickers with toxic frequencies and transfers by plasma discharges of mercury gas corresponding spectral information via the eyes to our brain. Over time this can have disastrous consequences for our health.

Modern Technology offers a solution

Due to new developments in producing light we now have light sources (LED) with extreme brightness and an ideal spectrum at our disposal. With the modern high intensity LEDs it is now possible to produce light which is utilized by our organism like natural sunlight. The development of the light unit **FIT 915** fulfils all requirements which our organism needs from natural light.

The solution is the **FIT 915**

Intensive white radiation 9,000-14,000 lux wavelength 400-700 nm

Intensive red light radiation 12,000-20,000 mc (12,000-20,000 lux) wavelength 630 nm

WEBINARS FROM MED-TRONIK!

Every two (2) weeks, Med-Tronik will be conducting a webinar on various subjects with application and function of the MORA® Nova. Each webinar will be approximately 30 minutes in length and will be in both German and English.

Click here for the German webinars: <http://www.med-tronik.de/academy/webinare.html>

And here for the English webinars: <http://www.med-tronik.de/en/academy/webinars.html>

Simply press the Register button and sign up. You will be sent a confirmation email, as well as a reminder closer to the date.

This is a terrific opportunity for you to receive ongoing education featuring some of the best and most famous instructors from Med-Tronik including **Dr. Nuno Ruivo**, **Dr. Peter Mahr** and even occasionally **Dr. Gottfried Cornelissen**. If the times don't work for you, don't worry, Med-Tronik will be archiving them so you can watch at your own convenience (or time zone).

Depending on time available, there may even be time at the end for a brief Q & A.

We look forward to you taking advantage of this terrific opportunity to get training on a regular basis. More topics will be available as time permits.

Be sure to save this to your "favorites" and join in regularly.

English BioResonance Power Week: MORA® in Daily Practice

The BioResonance Power Week has been devised in order to facilitate our International customers in obtaining their MORA certification. This six-day long English language seminar will cover all standard seminars, Basic, Advanced and Masters.

Price: €400 per person inclusive lunch, scripts, excl. VAT

Duration: 5½ days, Monday-Friday 9 AM to 5 PM, Saturday 8:30 AM to 12 Noon.

Instructors: Dr. Nuno Ruivo and Dr. Peter Mahr

Dates: September 10-15, 2018

Carolyn's Comments: In recent years we have watched some of our top rank Naturopaths going back to the books to prepare for the dreaded "prescribing exam". Personally I wonder about why our NDs are being trained and examined to prescribe (allopathic) medications when as Naturopaths they would normally "prescribe" homeopathics, supplements, herbs, etc. On the other side of the coin we are seeing our homeopathics and natural remedies being taken off the market by Health Canada and the US FDA. Where can we now turn for remedies for our patients? Note that Sanum, Heel and other North American "discontinued" remedy companies are definitely licensed and included in the software above . . .

And **an added note** for all upcoming participants of Dr. Simon Yu's AMA "boot camp workshop", the MORA Super Plus is the device used by Dr. Yu for all of his diagnostic testing. It is the printout charts from this diagnostic software which Dr. Yu shows in all of his many (international) lectures and presentations. CLW

OIRF Special Reports:

The following publications have all been researched (many also translated) and published exclusively through OIRF for our members and supporters, and offer advanced insight into these methods. Invaluable in every practitioner's library.

- 1) **Report on LM Potencies** (Homeopathy). Translated and prepared by **Dr. Walter D. Sturm** based on the work of **Dr. Samuel Hahnemann**. This is pivotal information for all homeopaths. In the last years of his life Dr. Hahnemann turned solely to the use of LM potencies for his patients instead of the "usual" C and X potencies still utilized today. This knowledge was suppressed for nearly 80 years and revolutionized the practice of homeopathy when that famous 6th edition of his Organon of Medicine was finally published. Read the story and see the meticulous research and translation left us by Dr. Sturm. See further information on this important report at this link. 51 Pages. \$40

- 7) **A transcript of Dr. Morell's BioElectronic Vincent Lecture (BEV/BE-T-A)**. **THIS OFFICIAL TRANSCRIPT** of Dr. Franz Morell's 3-hour lecture is available from the Institute. It consists of thirty-one pages plus reproductions of his slides – it gives an excellent introduction to this objective bio-electronic testing method (BEV). Dr. Morell took us even further into the BIO-ELECTRONIC "VINCENT" Method during a subsequent seminar and introduced a totally new [at that time] German built instrument for it (by the Med-Tronik company, and Mr. Erich Rasche again!) to this country. \$15

The OIRF Special Report on Medication Testing

A translation of Dr. Kramer's full medication testing guidelines from beginning to highly advanced aspects. Dr. Kramer has given us the most complete, step-by-step guidelines for learning medication testing on your own. Based on his seventeen years of practice and teaching, he also suggests the preparations you need to get started. Recommendations on how to order a set of those preparations for yourself are included within the report, and most are now included within the Electronic Remedy Test Sets Software. If you follow all of the report instructions, you will learn how to do medication testing by yourself, easily, quickly and correctly. If not, something is wrong with your Electro-Acupuncture instrument – not you!

A Special Memorial Report

The Ground Regulation System (GRS)

By o. Univ.Prof. Dr.rer.nat. med.habil. Hartmut Heine †

A few years after his serious illness in 2011 **Prof. Dr. Hartmut Heine** published a series of seven articles on the **Ground Regulation System**. I [*Carolyn Winsor*] was honored to be able to translate this incredible research into English for the first time and to publish it in our newsletter, "The Bridge".

As I worked my way through translation of the first article, the wealth of knowledge and understanding imparted in even that introductory article left me scrambling for dictionaries, research documents hidden away in the old OIRF library and way beyond "Google searches" to make sure that I was doing justice to the information Prof. Dr. Heine was imparting. Combined with the succeeding six further articles, his gift to us of knowledge and of understanding is truly priceless.

In respect for Prof. Heine I have merged those seven articles into one single report and have republished it separate from that older newsletter. With a total of 48 (mind-blowing) pages, this work is not just "worthwhile" reading, but mandatory reading for all practitioners of orthodox and complementary medicine. Available in electronic or print format for \$30, here is an outline of the contents:

- Part 1** – The Ground Regulation [A History and Background]
- Part 2** – GRS as a non-linear system – Structure, function and determined chaos
- Part 3** – GRS as a non-linear system– Structural components of the extracellular matrix (ECM)
- Part 4** – Spatial structure of the ECM and material transport within the system
- Part 5** – Contact, limitation and clogging up: Cell adhesion, basal membrane and glycosylation
- Part 6** – Functional relations of the ground regulation with the central nervous system
- Part 7** – The Ground Regulation and the Circadian Rhythm
 - The Ground Regulation and Alzheimer Dementia

"EXTENSION TRAINING" PROGRAM IN MODERN & TRADITIONAL ACUPUNCTURE

Over twelve hundred pages of printed materials incorporating applicable materials from the supplementary textbook ([An Outline of Chinese Acupuncture](#)) and set of four charts (by [China Cultural Corp.](#)). Program starts off assuming you know nothing about acupuncture (a good place to start even if only as a thorough review of the basics) and takes you right through to the most heavy-duty advanced aspects of true, 'energetical' acupuncture. The finest and most comprehensive material in the English language, covers all seventy-one meridians of traditional acupuncture; that 'missing sixty percent' of acupuncture knowledge most "acupuncturists" have never even heard of; and, the modern electronic 'needle-less' treatment methods (Electro-Acupoint Therapy) now so popular.

Over 3,000 students were originally enrolled in this famous Extension Training Program, and the OICS graduate listings read like a "Who's Who of Acupuncture" in the English speaking world. This program takes you as far as anyone possibly can in a 'written' format prior to the clinical finesse and practicum needed to round out your acupuncture study to professional levels.

FULL THIRTY-THREE LESSON PROGRAM NOW AVAILABLE ON DVD

Price includes disc with all 33 Lessons, applicable supplementary textbook ([An Outline of Chinese Acupuncture](#)) passages and representation of set of acupuncture charts (China Cultural Corporation set of four). [Current editions of the textbook and charts can be easily obtained from suppliers of acupuncture books and supplies.] Price does **not** include printed materials, binders; or, any tutorial, examination, or certification privileges. Follow above link for full details. **Full set on one disc available for CDN \$165.**
