## THE BRIDGE

### Linking Practitioners of German Biological Medicine

Volume 10, Issue #7, July 2014

Wednesday, 23 July 2014

Dear Colleagues, Friends and Supporters of OIRF,

➡ **Welcome to Volume 10, Issue #7 of "The Bridge" newsletter for 2014!**

Here is some further information regarding vaccinations that is also a nice introduction to the recent research of **Juliane Sacher, MD**. Dr. Sacher will be speaking to the **41st Biological Medicine Tour group** and this should be enough to whet your appetite to join us for this program.

While confirming some of the contact details in Dr. Sacher's articles, I found it interesting how many links and how much online information that is critical of vaccinations has been deleted or otherwise made inaccessible. Our greatest respect and support goes out to Dr. Sacher who – in spite of peer and media pressure – has brought us so much valuable and effective information about AIDS, Cancer and now vaccinations. She has very graciously accepted our invitation to speak to the group to bring us up to date on her findings, and this lecture will be one of the main highlights of this program. See further details on the tour program later in this newsletter and also on our website and get your registrations in early.

Please also refer back to Issue #6 for an article on the side effects of the HPV vaccination and some practical application hints and tips from **Marguerite Lane, ND** from Australia.

I had started translation of an article on Color Therapy which will now be shuffled into one of our later fall issues and we can look forward to the always interesting and thought provoking annual article from Theodore (Ted) J. Cole, DO, CTN for Issue #8 due to publish in mid-August.

➡ Speaking of August these are going to be busy times during those very hot dog days of summer here in our Okanagan Valley. Our beautiful custom designed building is listed for sale and we are already collecting boxes and preparing to move to our smaller and more efficient location. Whew! What a job!

To assist us in our downsizing – or "right-sizing" as one of my advisors calls it – there are "**Sizzling Summer Savings**" available with the OIRF Garage Sale and we will also be announcing some specials on new devices.

Many of the demonstrator devices listed in the original Garage Sale listings have already been sold and are now happily residing and working with their new owners. As we organized all the devices and prepped them for shipping, we were able to include many accessories, power cords, operating instructions and lots of goodies with every piece of equipment. Even at the quoted prices, these items are a real steal and are very definitely a good deal. We will issue a revised listing just before the end of this month to show you what is left and perhaps give you a better description of each remaining item. Please contact our office quickly for any items you are interested in adding to your collection before it is cleared away.

We have also discovered multiple sets of some specialty test sets (like the tooth test sets of Dr. Schramm) that Dr. Sturm had stored away. These will also be listed in the Garage Sale at clearance prices – help us reduce all this “important stuff” (no it's not “junk”!) that has to be moved – please!!

➡ **Karim Dhanani, ND** of the Centre for Biological Medicine in Ontario, Canada – one of our longstanding and most supportive Directors – has “adopted” the primary set of homeopathic remedies and test sets from Dr. Sturm's office as well as the huge library collected over the past 40+ years. The remedies will be carefully and lovingly transported to his clinic where they will be put back into daily practice. We have been unable to continue an active practice at OIRF since Dr. Sturm's passing and are grateful and thrilled that these irreplaceable remedies will once again be utilized to their full potential to help patients.

The OIRF library will also be moved to Dr. Dhanani's Biological Medicine Centre. This collection estimated at more than 10,000 volumes is being prepared for packing and shipping. The goal – as practice and business time allows – will be to digitize many of the out of print and no longer available publications. Many of the archived audio and video recordings (including seminars with Dr. Morell, Dr. Schimmel, Dr. Langreder, and many more) will also be digitized into current formats. This is a huge job, but one that will preserve this information and research for new practitioners and students. I want to express our sincere gratitude to Dr. Dhanani, his colleague Dr. Ken Kinakin and the staff members at the Centre for helping us preserve this incredible legacy for future practitioners.

➡ As July comes to a close and we move through August we will be preparing for the busy fall seminar and publication season. At the same time we are preparing for the many changes and work of relocating the OIRF offices. With this much activity and confusion going on, we have specifically scheduled holiday time as well as separate time to spend with family. Carolyn will actually be taking a 10 day holiday to visit in the US, and will be out of the office from July 31 to August 11. Additionally we are returning to our more laid back **summer office hours** of 8:30 AM to 4:30 PM Monday to Thursday (Pacific Time Zone). We will be **closed on Fridays** through until the first of September. You can always reach us by email or call during office hours to speak with us personally. Thank you for your patience and understanding.

➡ Occidental Institute celebrates another milestone anniversary – OIRF is now forty-two – that's 42!! – years old. It is amazing where all those years have gone since we opened our doors in Weston, Ontario Canada on July 2, 1972. Be sure to support your Institute by purchasing the reports, educational materials, newsletters and instrumentation available **exclusively** through OIRF.

➡ We send sincere thanks to all who confirmed their desire to continue receiving emails from OIRF. Amazing how all this new anti-spam legislation has worked. I have received more and more junk emails on a daily basis in spite of our email filters and yet they are not asking for our permission. However the silver lining in all this is that only three people requested to “unsubscribe” while nearly everyone else said “yes”, “definitely confirm me” and “please do not delete me!” immediately. Thank you everyone for your cooperation and patience as we comply with this so called helpful legislation.

➡ The **OIRF 41st Biological Medicine Tour program to Germany!** This group tour program has been finalized and the itinerary is set. This year we have two feature speakers: **Juliane Sacher, MD** (famous for her research with AIDS and cancer) will tell us about her latest research into the connections between chronic diseases and increasing vaccinations, while **Olaf Kuhnke, MD** will tell us about some classical homeopathic therapies for pain treatment and also about his famous Ortho-Bio-Med Center in Switzerland.

Additionally, there are visits to the exhibits at the **Baden-Baden Medicine Week Congress**, attendance at some Med-Week lectures and several lecture sessions privately arranged for our group. You will experience a busy but highly informative schedule with like-minded companions who share your interest in biological and alternative medicine without the hassles of making personal travel arrangements while in Germany – the hotels are set, our private motor coach awaits us and even many of the excellent meals have already been planned. All we need now to make this program a success is your early registration.

Follow this link to the [Germany Tour](#) page on our website for itinerary, lecture, registration and activity details. I’ve given you lots of advance time notice – plan now to join us for this educational (and fun) tour program! Registrations have already been received from Australia, Brazil, Canada and the USA. **Register early** to ensure space is available and do not miss the opportunity to participate in this popular and educational tour program.

➡ Please see Page 11 of this newsletter issue for details on a **special grant program** that has been established in the name of **Marietta Service**. You are invited to apply for grant assistance for students or new practitioners to assist them in learning about biological and alternative medical methods.

Over the past few years we have noticed a strong trend among the newer practitioners and students to rely on “prolotherapy” and “prescribing”. This rote response to almost all patients by the newer ND’s and acupuncturists appears to be leading us further and further away from the true naturopathic and biological medicine approaches that have been so successful for most of our “more experienced” practitioners (I didn’t say old so don’t be picking on me!). Here is an opportunity for you to recommend a colleague or promising student for some financial assistance to get them started and to give them some exposure to these highly effective methods.

➡ All 2014 issues of “The Bridge” newsletter will be sent to you by email and then published on our website. **Access is open to all**. Follow this link to get your PDF print copy of “The Bridge” Volume 10, Issue #7.

➡ So, here are your newsletter items for this Issue #7 . . .

A series of **exclusive articles for OIRF Supporters** published July 2014  
by Occidental Institute Research Foundation . . .

## Vaccinations

By Juliane Sacher, MD

Machine Translation by SYSTRAN, Lernout & Hauspie, LogoMedia & Prompt  
Translation & redaction by: Carolyn L. Winsor, OIRF

© Copyright 2010 to 2014, Dr. Juliane Sacher, Frankfurt, Germany

***Preliminary Translator Comments:*** The following four articles were taken from Dr. Juliane Sacher's website and translated for your easier access to the information, and as an introduction to the research she will present to participants of the forthcoming [41st Biological Medicine Group Tour to Germany](#). Originally Dr. Sacher presented this information in private emails and letters to like-minded and interested colleagues. When the first article was "leaked" to the media there was a firestorm of protest and "outrage" from the medical establishment and the pharmaceutical companies – understandably. With so much publicity and response, Dr. Sacher turned to publishing some of her subsequent communications on her website, and now frequently presents this information in lecture format.

While confirming some of the contact details in Dr. Sacher's articles, I found it interesting how many links and how much online information that is critical of vaccinations has been deleted or otherwise made inaccessible. Our greatest respect and support goes out to Dr. Sacher who – in spite of peer and media pressure – has brought us so much valuable and effective information about AIDS, Cancer and now vaccinations. CLWS

## New Virus and Tamiflu

Once again there is a new virus which spreads out "like an epidemic". This virus is vulnerable – what a happy coincidence – to the medication Tamiflu\*! A scoundrel who imagines something as a result . . .

No more than 3-4 weeks ago it appeared everywhere to us in all the newspapers that the entire stockpiled (since the Bird Flu) "Tamiflu" tablets reach their expiry date at the end of this year!! They had been bought by many governments for the supposed Bird Flu Epidemic!!

At that time in spite of diverse criticism the German Federal States bunkered Tamiflu for nearly 200 million Euros. The State of Hesse has even stored Tamiflu for 20% of the population. Prof. Ludwig from the Drug Commission of the German Medical Association said that there is no circle of acquaintances who profit from Tamiflu. Nevertheless, the manufacturer Roche advertises on the internet for an application of Tamiflu against the normal influenza. May one use tax money simply for a dubious security?

The side effects are frequent: Feeling of sickness, vomiting, stomach aches. In Japan 16 teenagers committed suicide after taking Tamiflu, so that in the meantime the Roche Company must expressly warn about such risks in the patient information leaflet.

\* Prescription **TAMIFLU**<sup>®</sup> (oseltamivir phosphate) – Roche

## Vaccination against Swine Flu

The two vaccines Pandemrix\* and Focetria\*\* against the so called Swine Flu contain Squalene as an adjuvant (vaccination amplifier).

In human beings Squalene has been used on the US Soldiers of the first Gulf War as a vaccination amplifier. 23-27% (every fourth person).

Also those who remained at home acquired the Gulf War illness characterized with chronic fatigue, fibromyalgia (muscle rheumatism), alongside memory and concentration problems, persistent headaches, exhaustion and prolonged pains. The illness can also include chronic digestive problems and skin rashes. The illness has also not improved since 1991 – thus even since 18 years.

Of those inoculated [*and ill*] with Gulf War Syndrome Squalene antibodies were found in 95%, however those inoculated but without illness [*Squalene antibodies were*] found in 0%.

Only after more than 10 years were the damages recognized by the US Ministry of Defense.

If the [*German*] Federal Government enforces its will and 35 million people are inoculated, it is calculated that 8-9 million German citizens will suffer for decades from chronic fatigue and fibromyalgia, etc. as a result.

For sources about Squalene, Gulf War [*Syndrome*], etc. you input to Google: Impfpfer-vom-Golfkrieg-durch-Quecksilber-und-Squalen [*Vaccination casualties from Gulf War through mercury and Squalene*]. There you come to the site of the <http://toxcenter.org/>

Among other good sources are also the patient package insert (you can get one from the pharmacist) and MF59 ([Novartis] [http://ajp.amjpathol.org/article/S0002-9440\(10\)65077-8/abstract](http://ajp.amjpathol.org/article/S0002-9440(10)65077-8/abstract))\*\* and AsO3 = Squalene (<http://preview.ncbi.nlm.nih.gov/pubmed/12892730>)

(AsO3 is the GlaxoSmith Kline adjuvant being used in some swine flu vaccines. It is not being used in the United States. It does contain Squalene. It is being used in Canada and Europe. WHO recommended that countries use the adjuvants to stretch the world supply of swine flu vaccines.)

Additionally:

- Dr. Seefeldt, HP and Mrs. Dr. Stöcker from the Paul Ehrlich Institute <http://www.pei.de/EN/home/node.html> \*\*\*\*
- Asa PB, Cao Y, Garry RF. Antibodies to Squalene in Gulf War Syndrome. *Exp Mol Pathol* 2000;68:55-64
- All three authors could also cause Squalene autoimmune illnesses in animal experiments.

In the appendix there is also a work which does not see a connection between Squalene and Gulf War Syndrome.

Just like this work there are more which quote that the Gulf War Syndrome was triggered by poisons which the soldiers were given. Of course that can be good that the poisons played a role. However, one question remains: Why have those who although inoculated but without antibody formation not become ill? These latter ones have gotten the poisons in the same way. Again see:

Of those inoculated [*and ill*] with Gulf War Syndrome Squalene antibodies were found in 95%, however those inoculated but without illness [*Squalene antibodies were*] found in 0%.

This means that actually only those who have become ill have formed antibodies. If these had not gotten the vaccination, then they maybe/probably would not have become ill . . .

Question also: Why have those who were vaccinated but were not at all in the Gulf War also become ill?

Here is another warning from the German Professional Association for Physicians: [http://www.gesunde-westlausitz.de/bund/2009/dokumente/091028\\_Grippe.pdf](http://www.gesunde-westlausitz.de/bund/2009/dokumente/091028_Grippe.pdf) [*German language press release*]

As for the rest, an excellent investigation and a good summary about the crucial connections of vaccinations and symptoms can be found in the quite new film by Michael

Leitner: “Heute Rinder, Morgen Kinder” [*“Today cattle, tomorrow children”*]. Besides Michael Leitner and Dr. Gradl our respect is due to Angelika Kögel-Schauz for the thorough and reliable research. I have not contributed a lot to it; I only further transmit this information . . .

A 6 minute trailer for the new documentary is immediately online: <http://www.youtube.com/watch?v=VL5vmQpuDj4> \*\*\*\*\* You can recognize very well from “Today Cattle” how epidemics are constructed on the PC and which vaccination damages are to be expected from the “Swine Flu Vaccination”.

\* Pandemrix™ contains a flu strain called A/California/7/2009 (H1N1)v-like strain (X-179A) – GlaxoSmithKline

\*\* Focetria, U.S.-licensed Fluvirin®, A/California/07/2009 (H1N1)-derived strain used NYMC X-181 – GlaxoSmithKline

\*\*\* The translator has added this website link regarding Squalene – the link cited by Dr. Sacher for MF 59 in this journal is no longer available or accessible

\*\*\*\* Again the link listed by Dr. Sacher is no longer available or accessible. Here is a general link to the Paul Ehrlich Institute English language site.

\*\*\*\*\* Again the link provided by Dr. Sacher for this trailer is not functional. Here is a link to the YouTube full version of the documentary – in German of course.

## Vaccination 2

I sent my critical vaccination email message on 04 November 2009 as well as for years to some people whom I know, and since then have received hundreds of answering emails, telephone calls and faxes – and an end does not seem in sight . . . In all the years I have not yet experienced something like that. Quite unexpectedly this email was sent to thousands of people . . . Our practice business is completely blocked with it and I sit for days at every free minute at the PC and answer emails . . .

In my original email I referred to works which saw a connection between Squalene and Gulf War Syndrome.

I admit that was not so clever, because some authors later demonstrated that the Gulf War Syndrome could not have dealt with Squalene because no Squalene is supposed to have existed in the vaccine.

Nevertheless for me the question remains why nearly 100%, namely 95%, of the people who were ill showed Squalene antibodies, and those who were not ill had NO Squalene antibodies. This result speaks for the fact that the illness stands in connection with the Squalene antibodies.

There is – independent of the Gulf War Syndrome – a series of scientific works which indicate heavy side effects from Squalene:

- Carlson BC, Jansson AM, Larsson A, Bucht A, Lorentzen C: Endogenous adjuvant squalen can induce a chronic T-cell mediated arthritis in rats; Am J Pathol 156(6), 2057-2065 (2000)
- Smialek M, Gajkowska B, Ostrowski RP, Piotrowski P: Experimental squalen encephaloneuropathy in the rats; Folia Neuropathologica 35(4) 262-264 (1997)
- Gajkowska B, Smialek K, Ostrowski RP, Piotrowski P, Frontezak-Baniewicz M: The experimental squalen encephaloneuropathy in the rats; Exp. Toxicol Pathol 5 ; 75-80 (1999)

In the animal model Squalene consequently produced an illness analogous to MS (EAE).

As for the rest, Squalene is not currently recognized by the FDA as an adjuvant – neither MF59 from Novartis nor the AsO3 from GlaxoSmithKline (GSK).

I cannot clear up every single answer email about the Swine Flu, H1N and the vaccinations, etc. Those who would like to know something [more] can go to my homepage at <http://www.praxis-sacher.de/>. There I will try to publish the newest things in each case.\*

What else?

Some days ago the department heads of the Hessian local public health department met. At this meeting it turned out that over 70% would not allow themselves to be vaccinated! The minutes of the official discussion were given to the press as a “confidential” paper ... In a few days this information was sent to the ZDF [*one of the main German television channels*].

\* The articles included here are German to English translations of some of the information posted on Dr. Sacher's website.

## Vaccination 3

The argument that Squalene is found in the body is not rebutting evidence for the fact that it can pose a problem if it is injected in a vaccination.

Also the fact that Squalene was already administered in so many other vaccinations is not sufficient argument because no studies were made about which side effects were released through the administration of Squalene in Fludad\*.

As for the rest, Squalene is not currently recognized by the FDA as an adjuvant – neither the MF59 from Novartis nor the AsO3 from GlaxoSmithKline (GSK).

Accordingly the American vaccinations are not allowed to contain these adjuvants.

The vaccines Pandemrix and Focetria are doubtful not only because of their Squalene ingredients.

There are preservatives in all vaccinations for durability. Pandemrix and Focetria also contain Thiomersal\*\*. Thiomersal is a strong cell and nerve poison.

As another alternative the vaccine Celvapan\*\*\* is offered. However this contains formaldehyde as a disinfectant. Formaldehyde was banned from the furniture industry because the evaporations into the rooms caused serious illnesses.

I ask myself, why would you actually use formaldehyde in vaccination ampules after this official information?

\* **Fluad®**, a trivalent inactivated subunit influenza vaccine ( TIV ) adjuvanted with MF59C.1[a] – Novartis

\*\* **Thiomersal** (INN), commonly known in the US as thimerosal, is an organomercury compound.

\*\*\* **CELVAPAN** H1N1 culture-based and non-adjuvanted pandemic influenza vaccine Baxter U.S.

Some additional English language website links for further information on Squalene:

- <http://articles.mercola.com/sites/articles/archive/2009/08/04/squalene-the-swine-flu-vaccines-dirty-little-secret-exposed.aspx>
- <http://www.ncbi.nlm.nih.gov/pubmed/10640454>

### In Memoriam

**Walter D. Sturm**

BEd, DAcu, PhD, HMD

Founder of OIRF

\*Nov. 23, 1944 - †July 5, 2004

Thank you "Boss". Be at Peace.

### Practice Application:

- Standard EAV or MORA Optima assessment capabilities of the **Nova® MED Professional**.
- Full EAV assessment software incorporated into Nova® MED Professional for fast accurate testing and assessment using actual or electronic test sets.
- Optional “Tooth Testing” module for standard currents in the mouth, as well as assessment of dental foci.
- Cancer and Mitochondropathy Electronic Test Sets according to the research of **Dr. Gottfried Cornelissen** for cancer assessment and application.
- Or, VEGA-type testing capability has been incorporated into the MORA-Nova to allow utilization of available Electronic Test Sets – or of the coveted actual VEGA test set vials.
- For those who already have other testing and diagnostic methods in place, or for beginning BioResonance practitioners, the recently introduced **Nova® MED Basic** offers a less costly device with “therapy only” applications.
- **BioResonance Therapy Applications:**
  - Assistance with detoxification and intolerance.
  - Highly effective therapy for allergic and intolerance responses.
  - Building immune system.
  - Delivery of medication information.
  - Follow this link for [MORA BioResonance details](#).
- For order, delivery & pricing information contact OIRF Office at 1-800-663-8342

🔄 Of the three full “home-study” or “extension training” programs developed by Occidental Institute, two have been fully updated and are available in PDF format on disc. Research and publication of each of those programs has been pivotal in the development and application of Acupuncture and Biological Medicine in North America and around the world. Be sure to obtain your copies of these famous and well respected volumes for your library and study purposes.

- Modern & Traditional Acupuncture: \$165
- Master of Acupuncture Program: Translations of the ancient acupuncture classics (The Nei Ching consisting of the Su Wen and Ling Shu, as well as the “Difficult Classic” the Nan Ching) are still available in printed format – \$125 Work on scanning and reformatting these materials will progress slowly as time allows during our busy summer and fall seasons.
- EAV Desk Reference Manuals, Parts 1 & 2 – \$200
- Diagnostics and Therapeutics Seminars of Dr. Sturm – \$200

Get more details at <http://www.oirf.com/resources.html>

➡ A fund totaling CDN \$3,000 was recently received from **Marietta Service** to sponsor important OIRF staff travel and expenses. This funding is now being “paid forward” with the establishment of a series of grants available to students and new practitioners to assist them in entering the exciting field of biological and energetic medicine. Grants in the following amounts are now available:

**OIRF reference materials:**

Five grants of \$150 each

**OIRF seminar/workshop video materials:**

Five grants of \$150 each

**OIRF Germany Tour program:**

Three grants of \$500 each (Two are still available at 23.07.2014)

To apply for this funding or make a recommendation for a student or new colleague, please submit (by fax or email) a short application including the following details:

- Application for personal funding       Application for a student I know
- Application for a new practitioner/colleague

(Please print clearly in this part!)

My Name \_\_\_\_\_

Name of Grant Recipient \_\_\_\_\_

Address \_\_\_\_\_

City \_\_\_\_\_ State/Prov. \_\_\_\_\_ Postal Code \_\_\_\_\_

Office phone \_\_\_\_\_ Home phone \_\_\_\_\_

E-Mail \_\_\_\_\_ Fax phone \_\_\_\_\_

Why did you refer this person for a grant? \_\_\_\_\_

\_\_\_\_\_

We request the grant funding applied to: \_\_\_\_\_

\_\_\_\_\_

Signature (Now you can scrawl) \_\_\_\_\_

**MAIL TO: OIRF, P.O. Box 100, Penticton, B.C. V2A 6J9, CANADA  
OR, FAX TO: (250) 490-3348 OR, EMAIL TO: [support@oirf.com](mailto:support@oirf.com)**

## Videotaped "DIAGNOSTICS" AND "THERAPEUTICS"

Seminar/Workshops by Dr. Walter D. Sturm† of OIRF Staff

### Part One on Diagnostics:

- Electronic point measurement
- Medication testing, and more

### Part Two on Therapeutics:

- **MORA-Therapy**
- Electronic Homeopathy
- Remedy Information Transfer, and more
- *Optional day on his other therapies!*

Follow this link to see a full description of these videotaped ["Diagnostics and Therapeutics" Seminar/Workshops](#) by Dr. Walter D. Sturm† of the OIRF Staff.

Available on five (5) DVD's plus one (1) CD with all overheads and extensive handouts materials for CDN \$200 (plus shipping).

Published in Canada by: **Occidental Institute Research Foundation**  
P. O. Box 100, Penticton, BC V2A 6J9 Canada  
Phone: 800-663-8342 or (250) 490-3318  
Website: [www.oirf.com](http://www.oirf.com) Email: [support@oirf.com](mailto:support@oirf.com)

### OIRF Resource Materials:

- For more information and instruction about point and medication testing with EAV see the OIRF: [Medication Testing Report](#) and the [EAV Desk Reference Manuals](#) (both available on disc).
- For more information and instruction about [Diagnostic and Therapeutic Techniques in Biological Medicine](#) with emphasis on BioResonance Therapy be sure to order the recently re-released videos of Dr. Walter Sturm's seminars.
- For a complete [listing of OIRF resource materials](#), including publications, reports, books and videos please follow this link to our website. There are full descriptions of all printed and recorded materials online.
- For a complete [listing of OIRF recommended instrumentation](#), including diagnostic, therapeutic and BioResonance devices please follow this link to our website. There are full descriptions of all instrumentation online.

## [“EXTENSION TRAINING” PROGRAM IN MODERN & TRADITIONAL ACUPUNCTURE](#)

Over twelve hundred pages of printed materials incorporating applicable materials from the supplementary textbook ([An Outline of Chinese Acupuncture](#)) and set of four charts (by [China Cultural Corp.](#)). Program starts off assuming you know nothing about acupuncture (a good place to start even if only as a thorough review of the basics) and takes you right through to the most heavy-duty advanced aspects of true, ‘energetical’ acupuncture. The finest and most comprehensive material in the English language, covers all seventy-one meridians of traditional acupuncture; that ‘missing sixty percent’ of acupuncture knowledge most “acupuncturists” have never even heard of; and, the modern electronic ‘needle-less’ treatment methods (Electro-Acupoint Therapy) now so popular.

Over 3,000 students were originally enrolled in this famous Extension Training Program, and the OICS graduate listings read like a “Who’s Who of Acupuncture” in the English speaking world. This program takes you as far as anyone possibly can in a ‘written’ format prior to the clinical finesse and practicum needed to round out your acupuncture study to professional levels.

### **FULL THIRTY-THREE LESSON PROGRAM NOW AVAILABLE ON DVD**

**Price includes** disc with all 33 Lessons, applicable supplementary textbook (An Outline of Chinese Acupuncture) passages and representation of set of acupuncture charts (China Cultural Corporation set of four). [Current editions of the textbook and charts can be easily obtained from suppliers of acupuncture books and supplies.] Price does **not** include printed materials, binders; or, any tutorial, examination, or certification privileges. Follow above link for full details. **Full set on one disc available for CDN \$165.**

## **Occidental Institute Research Foundation**

### **40th Biological Medicine Tour to Germany**

Tuesday, October 28 through Monday, November 3, 2014

**Theme: Clinical Applications in Biological Medicine**

Hear privately arranged English language lectures from:

- **Dr. Juliane Sacher** – Connection between chronic disease & vaccinations
- **Dr. Olaf Kuhnke** – Naturopathic therapy for pain and fibromyalgia
- **Dr. Silvia Binder** – ONDAMED Therapy
- **Dr. Daniel Beilin** – Thermodiagnosics
- **MORA BioResonance Therapy**
- **Ionized Oxygen Therapy**
- New methods of **Dr. Helmut Schimmel**
- Visit from a German **Biological Medicine Hospital Clinic**

Attend Medicine Week (English) lectures featuring:

- **Dr. Frank Beck** – Magnetized filtered water
- **Dr. Dietrich Klinghardt** – Magnetic Field Therapy
- **Dr. Ulrike Heller** – Cepes Laser

- Our private lectures present the latest information and research in our field, with ample time for questions and hands-on.
- An opportunity to talk with like-minded colleagues and learn from the experience and expertise of attending OIRF Directors and Advisors.
- Visit and participate in the famous Medicine Week Congress in Baden-Baden
- Hear from a well known German pharmacy of biological remedies
- Travel in comfort with plenty of room for luggage
- Tour prices include full tour program, single room accommodations and most meals
- Be treated like family with good food, good friends and good conversation in friendly hotels

**ADVANCE REGISTRATION IS RECOMMENDED**

**[Biological Medicine Tour #41](#) information and [Register here](#)**

**For more details contact:** Occidental Institute, [www.oirf.com](http://www.oirf.com); E-Mail: [support@oirf.com](mailto:support@oirf.com)

PO Box 100, Penticton, BC V2A 6J9 Canada and register at 800-663-8342 or (250) 490-3318

➡ **Conferences and Conventions:** Please watch for announcements of the speakers, venues and details of these exciting OIRF activities and events for the year 2014:

➤ **Biological Medicine Tour #41 to Germany**, October 28-November 3, 2014 (dates for the 48th Baden-Baden Medicine Week Congress have been confirmed). Join us for our **41st** group tour including the world famous "Medicine Week" Congress in Baden-Baden. Tour program also includes private OIRF English language lectures from renowned German clinicians and researchers as well as pharmacy and clinic visits.

➤ Watch for speaker, venue and date details for a series of seminar/workshops focused on practical application of OIRF recommended diagnostic and therapeutic methods.

➡ For those of you who missed that great **MORA Nova training seminar/workshop in St. Louis, MO in June 2013**, high quality professional video recordings of some of the sessions are now available. The guest instructor was **Nuno Ruivo, DO** from Med-Tronik, Germany who is a long time MORA user and one of the technology and software developers of the Nova device. Order the 5 DVDs for \$100 and then deduct it from your MORA Nova order.

➡ As a non-profit organization dedicated to the expansion of Biological Medicine in North America through research, publication, seminar/workshops and sponsorships, we are solely and completely reliant on your support in order to continue our efforts. There is neither government funding nor any outside sponsorships. So, here are a few ways in which you can support Occidental Institute as we move forward in 2014:

- 1) Consider making a \$35 tax deductible donation to OIRF for the newsletter (even though we are offering it freely)
- 2) Be sure that you have purchased copies of the many educational printed and electronic publications and the audio/video training presentations available exclusively through OIRF
- 3) Plan now to attend the various smaller training seminar/workshops sponsored by OIRF to learn more about these methods
- 4) Incorporate sale of the smaller OIRF recommended devices (such as the Medisend Protect, MECOS, the "Little Ludwigs", the AQA 707 water regeneration device, and so on) to your patients – talk to Elaine or Carolyn for quantity discount pricing.
- 5) Make this the year you travel to Germany with us to see Medicine Week
- 6) Consider which of the various devices and methods recommended by OIRF will work in **your** practice and make this the year that you add one or more of them into your office
- 7) Plan to attend the various conferences and conventions where OIRF will sponsor an exhibit booth. This is another opportunity for you to see these methods in action and talk to us personally about how you can incorporate our recommended methods into your practice.

Your donation or contribution will be gratefully accepted and a tax deductible receipt will be issued. We thank you for your support and look forward to working with each of you during the coming year.

➡ Follow this link to our website to see Issue #7 in print/PDF format.

➡ In a recent issue of the newsletter from the **National Center for Homeopathy**, I found an interesting appeal for stories from its readers. I have adapted it here for our OIRF newsletter and ask you to consider what you can contribute to this – your – newsletter:

**Why submit an article**, practice tip, suggestion or comment to “The Bridge”?

The reason is simple – to spread the word and to help others.

We’ve found that the more docs hear about how well Biological Medicine works and how effective it is when applied in your practice, the more likely they are to try it themselves.

**How do I submit an article?**

Easy – send us a Word doc or docx – with permission for Carolyn to format and publish.

**What do we mean by Article?**

By “article” we mean tell us about a time when you treated yourself or your family – or a patient – and saw interesting results (e.g. Carolyn in her typical “hurry-up-and-go” fashion crushed her left hand in a heavy car door. Cell phone call to office to get “stuff” ready and drive back one handed. Treatments two times daily with BioPhoton Light Therapy and lots of (Heel) Traumeel Salve. Pain reduced immediately and virtually eliminated within days. Later examination by MD (for a suspicious “bump”) revealed that one bone had been badly bruised and one broken. Healing completed within a few weeks.)

Your article doesn’t need to be complicated or long; just a paragraph or two will suffice! If you have more than one article then feel free to submit more than one!

Thank you in advance for helping us to help others!

### ➡ **Updates, Reminders and Announcements:**

➤ Follow this link to the [Germany Tour Report](#) to join us and share some of our adventures and activities from our 2013 tour program. Dates for this year’s Tour #41 are October 28 through November 3, 2014 (including the Baden-Baden Medicine Week Congress).

➤ Watch for Volume 10, Issue #8 of the “The Bridge” newsletter to arrive in your Inbox around mid-August. Next to be featured will be an article from **Dr. Ted Cole**. The promised article that Carolyn has translated from one of the German Journals entitled *Color-Energy-Therapy, Energetic principles of Light and Color* will appear in one of the fall 2014 issues. Included are correlations of the colors to Dinshah’s color qualities, meridians and the time clock, chakras and balancing points.

➤ Visit our **Facebook** page – will you be our friend?

For the conspiracy theorists among us: “I think Humpty Dumpty was pushed!”

Page Sixteen; The Bridge, Volume 10, Issue #7; July 2014

I trust you have found much of interest in these pages. We look forward to meeting you during our 2014 activities and programs. As always your comments are welcome. Remember that this is your newsletter – your suggestions, article contributions, critiques, FAQ's and compliments – are gratefully accepted.

Yours in health,

*Carolyn*
