Volume 13, Issue #3, March 2017

Tuesday, 21 March 2017

Dear Colleagues, Friends and Supporters of OIRF,

➔ **Welcome to Volume 13, Issue #3 of "The Bridge" newsletter!**

Welcome to the third Issue of "The Bridge" for 2017. In these pages you will find another insightful article from **Michael Galitzer, MD** entitled "*Hormones and Aging*".

Next month's Issue #4 will introduce you to a "new to us" therapy device that has been successfully used in practice for nearly a decade. We will feature an article concerning application and provide information where you can purchase the device for your practice – at a nice discount! More on that to follow . . .

➔ Note that the 2017 Events Calendar has again expanded and you will find the new listings on Page 18 of this Issue and also on the [Events Page](#) of our website. Watch for announcements of several other conferences and seminars where you will find OIRF in an education or exhibit booth.

➔ **Important Reminder:** The organizers of the Baden-Baden **Medizinische Woche** have changed the dates of the annual congress due to conflict with a national holiday in Germany. Dates for the 2017 Medicine Week Congress and the **OIRF Germany Tour #44** have been altered accordingly and appear correctly on our website and below:

- Medicine Week: October 28 through November 1, 2017
- OIRF Germany Tour #44: October 26 through November 1, 2017

Remember the article in Volume 13, Issue #1 (January) by **Dr. Manfred Doepp** and **Patricia Lüning-Klemm** about the rapid exponential increase in the blanket of electromagnetic frequencies in our environment? Well, Dr. Doepp has agreed to speak to the Germany Tour group this year (after a hiatus of nearly 8 years). He's already outlined a very interesting lecture entitled the "*Digital Clinic*". In light of his ongoing exceptional research, this will be an exclusive and major lecture for the tour program.

In addition to our keynote speaker, here are some of the anticipated special features for Tour #44!

➡ We are pleased to introduce the new **FIT 915** device from Medical Electronics in Germany. You've heard us talking about the **UBS 315** compact device for revitalizing water and other liquids. Follow the link here for more details on the [UBS 315](#) and contact OIRF offices for pricing, order and delivery details.

The **FIT 915** utilizes the same technology as the **UBS 315** however it is now fitted into an exclusively designed head piece that fits over the eyes. Studies and research are showing amazing results and effectiveness of therapies using the correct light at the right time in the correct spectrum range. The premise of the **FIT 915** is that the use of modern LED full spectrum light sources can offer us the same benefits as direct sunlight. The incorporation of white and red light in the **FIT 915** fulfills all requirements which our organism needs for natural light.

There's already a preliminary list of very impressive indications for the **FIT 915** and it can also be used for "Super learning", hypnosis, sleep disorders and NLP when the photon radiation is modulated via the USB connection.

You can see a brief description on Pages 9 and 10 of this Issue. Please follow this link for full product information about the [FIT 915](#) written by Dieter Jossner (of biophoton fame!). Then contact OIRF offices for full pricing, order and delivery information.

 I invite all of you to maintain your email or print subscription to "The Bridge" newsletter. All 2017 issues of "The Bridge" will be sent to you by email and then published on our website. **Access is open to all.** Follow this link to get your PDF print copy of "The Bridge" Volume 13, Issue #3.

Hormones and Aging

By Michael Galitzer, MD

© Copyright 2017, Dr. Michael Galitzer, California USA

We age because of a **decline in the hormonal production** by the endocrine glands in the body. In medical school, doctors are taught that hormone imbalances and declines in hormone production occur as an inevitable consequence of aging. This isn't so. Our hormones don't decline because we age. Rather, *we age because our hormones decline*. Understanding this difference is very important. The key endocrine glands in the body are the hypothalamus, pineal, pituitary, thyroid, thymus, pancreas, ovaries, testes, and adrenals. All of these glands release hormones into your body's bloodstream under the direction of the brain and nervous system in order to maintain your body's harmony and balance.

The word hormone is derived from the Greek word *hormone*, which means "that which sets in motion," and from the name of the ancient Greek spirit *Horme*, who personified energetic activity, impulse and effort. Hippocrates spoke of *hormon* when describing vital principles of health and healing, while Carl Jung referred to *Horme* when he wrote and spoke about the mental energy that drives unconscious activities and instincts. From the perspective of medicine, the word *hormone* means "to arouse or excite". That's because hormones are the chemical messengers in your body which, once they are secreted and enter the bloodstream, tell your cells what to do.

Hormones oversee and regulate virtually all of the countless processes that your body performs each day, ranging from the cognitive functions of your brain to the pace and rhythm of your every heartbeat. Hormones tell the body what to do with the information it receives from the outside (your external environment). Reduced hormonal production will result in a wide range of symptoms which include poor sleep, loss of muscle mass, mood swings, unhealthy weight gain, and decreased immunity. It is the hormonal system of the body that most correlates to our mental and emotional makeup. It is clear to me that our bodies' hormonal system responds to our outlook on the world *and also influences that outlook*. By restoring my patients' hormone levels to optimal levels, they become much more positive, both mentally and emotionally. Their zest for life returns, and they become happier, more joyful, and more excited and passionate about the days and years ahead of them.

Energetic disruptions in the body due to toxins, stress, nutritional deficiencies and other factors interfere with proper hormone production.

As I address my patients' hormone levels, the improvements in their overall health soon become apparent, not only to themselves, but to others. Their bodies typically become leaner, with better muscle tone, their skin improves, they have more energy, and they report a rejuvenation of their sex lives, enjoying sexual satisfaction as they did when they were in their 20s and 30s.

When it comes to staying young and healthy, the most important hormones are cortisol, DHEA, insulin, and the thyroid hormones, followed by the sex hormones estrogen, progesterone, and testosterone, along with human growth hormone.

I am always looking to optimize the thyroid and adrenal hormones, as well as reducing the level of insulin in the body. Think of the thyroid gland as the fuel injection system of your car, and the Adrenals as the gas pedal.

Your adrenal glands, which are triangular in shape and located above your kidneys, act as your body's energy reservoir. They play an integral role in both your energy levels, your ability to handle stressful situations, and are essential for proper functioning of your immune system,

Today, one of the most common health conditions I find among my patients is adrenal fatigue, also known as adrenal burnout. Adrenal fatigue is epidemic in our country. In traditional medical practices adrenal failure is recognized as a disease called Addison's disease. In fact, President John F. Kennedy had Addison's disease and treated it with cortisone for years. We're not talking here about adrenal failure, but about adrenal fatigue which occurs when the adrenals are depleted. Yet it is definitely not being detected in most medical practices. Physicians don't look for it. They don't properly diagnose it, and they don't treat it correctly. When patients come to me and complain about lethargy, fatigue, lack of energy or a reduced sex drive, or that they just don't have the same energy or the same sex drive, in almost all cases at the root of their problems, especially if they are past their thirties, can be traced back to impaired adrenal gland function. Adrenal fatigue is caused primarily by chronic stress and poor lifestyle choices. The different stressors include mental, emotional, nutritional (gluten intolerance), environmental (pesticides), electro-magnetic, physical, and infectious. Lifestyle triggers include excessive coffee, caffeinated soft drinks, sugar consumption, skipped meals, and inadequate sleep.

For the Adrenal gland evaluation, get a fasting blood DHEA-S, and a Serum cortisol. Saliva tests where one can see a 24 hour rhythm of DHEA and Cortisol are the most exact way to look at the adrenal glands(one collects saliva every 4 hours starting at 8 AM, and ending at 4AM the next day).

The adrenals have the highest need for Vitamin C of any of the organs of the body. Take 2-4,000 mg of Vitamin C daily. Other adrenal nutrients are Vitamin D, Magnesium, and B complex. Helpful herbs include licorice, ashwaganda, holy basil, rhodiola, black currant and Siberian ginseng. DHEA is one of the key adrenal hormones, and works well as an oral supplement. Women need 10 mg daily, and men do best with 50 mg. Pregnenolone is also very helpful for women.

Healthy people view stress as a challenge. People with adrenal fatigue view stress as a threat. They overreact to minimal stressors, causing their adrenal glands to secrete more cortisol and DHEA, and **when those reserves are depleted, the adrenal glands secrete adrenalin, heart rate goes up, agitation rises, and people wake up in the middle of the night wired.** Ultimately, the inner work that one does will be most helpful. Deep abdominal breathing exercises, yoga, meditation, daily connection with nature, vacations, and laughter are so important. **And the daily use of NuCalm, and its ability to promote restful sleep, coupled with its ability to synchronize brain waves and hormonal function, will prove to be one of the great health enhancement tools of our time.**

Toxoplasmosis

From the "Panorama View" section of:
Naturheilpraxis, 01/2017, Volume 70, January 2017
Translated by Carolyn L. Winsor, OIRF
© Naturheilpraxis, January 2017

Studies show that an infection with the pathogen *Toxoplasma gondii* can impair the working memory of the elderly (1). Every second German carries the pathogen in himself. Toxoplasmosis is known above all in connection with the health risks during pregnancy and for immunosuppressed persons. But how is the effect on the memory capacity of the elderly explained? The parasite only reproduces in the bowels of cats. The parasite eggs get into foreign organisms through the cat's excrement, for example to birds or mice. To again come back into the original host, the pathogen reduces the avoidance behavior of the intermediary host, as already shown in earlier studies. This means: A mouse which is infected with Toxoplasmosis consequently regards cats as harmless and is eaten faster. The parasite has achieved its goal and is again with the original host. An insidious trick which also influences the memory capacity of infected people. This apparently comes from an imbalance of Dopamine and Norepinephrine caused by the infection. In follow-up studies the connection between dementia and Toxoplasmosis should now be carefully examined.

The FIT 915 from Medical Electronics

Light: Scientific research results confirm the importance of correct light conditions

Healthy with light

The correct light at the right time; this leads to an outstanding potential of until now unused possibilities in energetic regeneration. Discoveries in the areas of photo-biology and chrono-biology reveal new and easy to use technologies within a wide ranging spectrum with effective application of light in a bio-energetic therapy.

Light: a phenomenon which has occupied human beings since ancient times. It is only now that we understand the enormity of the biological processes which are connected to this energy but which are still not fully understood. Only slowly is natural science recognizing how extremely important the interaction between biological processes in our bodies and the existence of the correct amount of light together with the correct spectrum range at the right time. In nature nearly all biological processes are synchronized by the light-dark phases of the natural sunlight.

White light, an important contributor to our health

Healthy and fit with correct light

Is it possible to be put into a good mood and feel fit by pressing a button? Most probably! Our mood and health are primarily controlled by hormones. These hormones are mainly controlled by light which we absorb with our eyes. This knowledge opens up untold new possibilities to positively influence the body. New technology is making this possible now.

Astonishing results based on the study of light are gaining more and more importance. The natural science branch involved in researching this field is called chronobiology. Practical understanding in this field teaches us about the significance of the correct light at the right time. Important hormones for our health and well being are endorphins, dopamine and serotonin which are controlled by light. Their existence is the immediate reaction to the absorption of natural light or light with equal physical properties. The intensity and the spectrum play an important role. A specially important part of the daylight spectrum is the large proportion of blue light (450-480 nm).

Red light regenerates and repairs holistically

Optimal wave length for holistic regeneration of all eye functions.

Scientific studies confirm that red light with a wave length of 630 nm offers maximum benefits for tissue regeneration. This wave length is also preferably used in photobiology to stimulate holistic body healing effects. Maximum depth penetration and optimal absorption guarantees the best possible treatment results, even in deeper skin tissue. This ensures that the eye itself and all linked supply systems are benefitting from the healing energy of the photons.

The brain needs the information provided by light to be able to cope with the numerous tasks

The light absorbed by our eyes is used by the brain for various tasks. Only about 15% of the light which the eyes absorb is used for orientation purposes. The remaining 85% are used in various parts of the brain. Circulation, metabolism, blood pressure, hormones and a whole range of other important functions are directly or indirectly dependent on the light absorbed by the eyes.

Sunlight is variable and continually changes its brightness and color combination

Starting at sunrise and through to sunset the sunlight spectrum arriving on the earth's surface is constantly changing. Since the beginning of time this dynamic light has nurtured all life on this earth. All living organisms have adjusted to this natural biologic rhythm and accepted it as the pacemaker for their inner life rhythm. Accordingly the hormone production is adjusted to the relevant time in the day because of the dynamic of light. Control of the complete hormonal balance can be lost if this dynamic is missing (night work/shift work).

Artificial light sources create biologically unfavorable light

Living areas and work places which are illuminated by artificial light sources induce a raft of problems of the inner synchronization to the outside world. Important wave lengths are missing in this light and it has a permanent unnatural color combination and brightness. The light flickers with toxic frequencies and transfers by plasma discharges of mercury gas corresponding spectral information via the eyes to our brain. Over time this can have disastrous consequences for our health.

Modern Technology offers a solution

Due to new developments in producing light we now have light sources (LED) with extreme brightness and an ideal spectrum at our disposal. With the modern high intensity LEDs it is now possible to produce light which is utilized by our organism like natural sunlight. The development of the light unit **FIT 915** fulfils all requirements which our organism needs from natural light.

The solution is the **FIT 915**

Intensive white radiation 9,000-14,000 lux wavelength 400-700 nm

Intensive red light radiation 12,000-20,000 mc (12,000-20,000 lux) wavelength 630 nm

MORA® NOVA

Vibrations that will change your life!

The MORA® BioResonance Method with reliable 2-channel technology

Stimulates self-healing powers and
thus removes disturbances and blockages.

Target group: Physicians, alternative practitioners,
therapists and naturopaths.

TREATMENT

For diagnosis or therapy with MORA® NOVA, the patient is connected through hand, foot and head electrodes. The patient's vibrations are sent to the device through the electrodes. Depending on the symptoms and treatment program, the vibrations are converted by MORA® NOVA into corresponding therapy frequency patterns and returned to the patient through the output electrodes.

BENEFITS FOR USERS

Today the bio-resonance therapy as an energetic diagnosis and therapy method cannot be wished away from holistic complementary medicine. MORA® NOVA offers many options that can cover various therapy fields. It gives you a reliable diagnosis and therapy. The body is thereby supported to regulate itself. Your patients experience a side effect-free therapy, which achieves astounding results for many symptoms and diseases. Often the bio-resonance therapy is helpful in cases where traditional medicine was not adequate.

BENEFITS FOR PATIENTS

- ◆ Often the patient feels an improvement just after the first treatment
- ◆ Therapy is often perceived as very comfortable
- ◆ Treatment is free of side effects and is not at all stressful
- ◆ Short treatment duration (between 5 and 30 minutes)

The MORA® System offers many remarkable possibilities!

MORA®-Diagnostics

The MORA®-Diagnosis and MORA®-Therapy are state of the art medical technology. They use the latest insight of modern biophysics and are scientifically researched and verifiable. The MORA® device has many diagnostic and therapeutic options.

MORA®-Therapy

For 35+ years, the MORA® bio-resonance therapy has been used successfully around the world. This therapy form makes it possible not only to diagnose unhealthy oscillations but also to treat them.

The electromagnetic oscillations are

- ◆ picked up in the patient's body
- ◆ transmitted to the MORA® device
- ◆ inverted by means of electronic amplifiers, and
- ◆ returned to the body

The aim:

To activate the body's self-healing power and to remove disruptions and blockages. The patient's balance is to be restored.

Treatment

Experience has shown that patients find the treatment very pleasant. While the electrodes are being put into place, the patient can relax. The therapy lasts between 5 and 30 minutes. Many patients even experience an improvement after the first treatment.

Side Effects

The patients experience a therapy free from side effects. The practice is not stressful at all. It can be used attendant to any pathology and permits combination with many therapeutic methods. In many diseases astonishing results are achieved.

A Special Report

The Ground Regulation System (GRS)

By o. Univ.Prof. Dr.rer.nat. med.habil. Hartmut Heine †

A few years after his serious illness in 2011 **Prof. Dr. Hartmut Heine** published a series of seven articles on the **Ground Regulation System**. I [*Carolyn Winsor*] was honored to be able to translate this incredible research into English for the first time and to publish it in our newsletter, "The Bridge".

As I worked my way through translation of the first article, the wealth of knowledge and understanding imparted in even that introductory article left me scrambling for dictionaries, research documents hidden away in the old OIRF library and way beyond "Google searches" to make sure that I was doing justice to the information Prof. Dr. Heine was imparting. Combined with the succeeding six further articles, his gift to us of knowledge and of understanding is truly priceless.

In respect for Prof. Heine I have merged those seven articles into one single report and have republished it separate from that older newsletter. With a total of 48 (mind-blowing) pages, this work is not just "worthwhile" reading, but mandatory reading for all practitioners of orthodox and complementary medicine. Available in electronic or print format for \$30, here is an outline of the contents:

- Part 1** – The Ground Regulation [A History and Background]
- Part 2** – GRS as a non-linear system – Structure, function and determined chaos
- Part 3** – GRS as a non-linear system– Structural components of the extracellular matrix (ECM)
- Part 4** – Spatial structure of the ECM and material transport within the system
- Part 5** – Contact, limitation and clogging up: Cell adhesion, basal membrane and glycosylation
- Part 6** – Functional relations of the ground regulation with the central nervous system
- Part 7** – The Ground Regulation and the Circadian Rhythm
 - The Ground Regulation and Alzheimer Dementia

"EXTENSION TRAINING" PROGRAM IN MODERN & TRADITIONAL ACUPUNCTURE

Over twelve hundred pages of printed materials incorporating applicable materials from the supplementary textbook ([An Outline of Chinese Acupuncture](#)) and set of four charts (by [China Cultural Corp.](#)). Program starts off assuming you know nothing about acupuncture (a good place to start even if only as a thorough review of the basics) and takes you right through to the most heavy-duty advanced aspects of true, 'energetical' acupuncture. The finest and most comprehensive material in the English language, covers all seventy-one meridians of traditional acupuncture; that 'missing sixty percent' of acupuncture knowledge most "acupuncturists" have never even heard of; and, the modern electronic 'needle-less' treatment methods (Electro-Acupoint Therapy) now so popular.

Over 3,000 students were originally enrolled in this famous Extension Training Program, and the OICS graduate listings read like a "Who's Who of Acupuncture" in the English speaking world. This program takes you as far as anyone possibly can in a 'written' format prior to the clinical finesse and practicum needed to round out your acupuncture study to professional levels.

FULL THIRTY-THREE LESSON PROGRAM NOW AVAILABLE ON DVD

Price includes disc with all 33 Lessons, applicable supplementary textbook (An Outline of Chinese Acupuncture) passages and representation of set of acupuncture charts (China Cultural Corporation set of four). [Current editions of the textbook and charts can be easily obtained from suppliers of acupuncture books and supplies.] Price does **not** include printed materials, binders; or, any tutorial, examination, or certification privileges. Follow above link for full details. **Full set on one disc available for CDN \$165.**

➤ **Mayr Therapy:** This is a method that has been recommended by OIRF for many years. We have sponsored at least six official English language Mayr training programs in the past that featured the direct students of **Dr. F. X. Mayr**, including **Dr. Erich Rauch** and **Dr. Ernst Kojer**. In Austria this training was offered solely to MD's, but with the passing of many of the original practitioner/teachers those requirements have been somewhat relaxed. It was interesting to see both the two main Mayr organizations well represented at the Medicine Week Congress. Both organizations have been offering English language training and it is my pleasure to re-introduce this method to our members and supporters. Even though there are no commercial or financial ties between OIRF (and none of our Advisor/Directors are directly involved) and these Mayr organizations, we felt it important to continue our recommendation for this well proven and highly effective method.

This year the **VivaMayr** organization in **Maria Wörth, Austria** (oh, such a beautiful area!) is offering two programs in English which feature **Harald Stossier, MD**. Contact Kristen by email at kristen@viva-mayr.com for details and registration information. Courses available in Maria Wörth are:

- ~~Basic Intensive Course, I & II: Jan. 15-27, 2017 – COMPLETED.~~
- **Advanced Training II: July 23 to Aug. 4, 2017**

➤ **51st Medicine Week Congress.** Dates are **Oct. 28 through Nov. 1, 2017** in Baden-Baden, Germany with OIRF Advisors, Directors and Germany Tour participants attending. Usually more than 3,000 doctors participate with nearly 200 lectures, workshops and courses (German and English language). Exhibit area with more than 220 exhibits provides you with an excellent insight into the big product offerings in natural healing and complementary medicine. There you can find out directly, and compare. Contact OIRF for attendance possibilities.

➤ **Biological Medicine Tour #44 to Germany, October 26 through November 1, 2017.** Join us for our **44th** group tour including the world famous "Medicine Week" Congress in Baden-Baden. Tour program also includes exclusive OIRF English language lectures from renowned German clinicians and researchers as well as pharmacy and clinic visits. Speaker, event, itinerary and registration details are posted on our website.

- Watch for seminar and conference updates and dates. Plan early which events you will be attending this year.
- Watch for Volume 13, Issue #4 of the "The Bridge" newsletter to arrive in your Inbox around mid-April 2017. There are a number of new and exceptionally well written articles by Med-Tronik researchers and instructors that have been published in the German *CO'Med* and *Naturheilkunde* journals. Carolyn has translated many of them for inclusion in future newsletter issues. We are looking forward to introducing some of the new devices (a newer model of the RM10 diagnostic device) and methods that were seen in Germany during the recent tour. The April Issue will feature an article introducing a therapy method and device using gems.

I trust you have found much of interest in these pages. During 2017 we are looking forward to participating in numerous conferences while supporting various speakers and several complementary organizations.
