

# THE BRIDGE

## Linking Practitioners of German Biological Medicine

Volume 14, Issue #3, March 2018

Tuesday, 20 March 2018

Dear Colleagues, Friends and Supporters of OIRF,

### ➤ Welcome to Volume 14, Issue #3 of "The Bridge" newsletter!

Welcome to this third Issue of "The Bridge" for 2018. This issue features another translation article from the German CO'Med journal with information on the application of BioResonance Assessment and Therapy for Metabolic Disorders.

Next month's Issue #4 will contain another insightful article from OIRF Board of Advisors member, **Dr. Michael Galitzer**. We're also seeking permission to reprint some articles by **Jürgen Aschoff, MD** on **Geobiology**.

➤ Please see the 2018 Events Calendar on Page 23 of this Issue and also on the [Events Page](#) of our website where you will find the current conference listings. Watch for announcements of several other conferences and seminars where you will find OIRF in an education or exhibit booth. Events for 2018 are currently being scheduled and we look forward to participating in many of them!

I've updated the event/seminar information and included the new 2018 dates for **Dr. Simon Yu's AMA training in St. Louis, MO** and the **English MORA Power Week training** at Med-Tronik in Germany.

➤ **Conference Reminder Notices:** (see details Pages 2, 14, and 22-24 in this Issue):

➤ **AMA** (EAV) hands-on workshop for MD's during April 27-29 and August 24-26, 2018 sponsored by **Dr. Simon Yu** of **Prevention and Healing** in St. Louis, Missouri. **Note:** Dr. Yu's AMA training and boot camp session has recently been opened to practitioners with alternate certification. It focuses on EAV-type testing for parasites and dental problems.

➤ **Neural Therapy** and **Integrative Biological Medicine:** Sponsored and organized by **Michael I. Gurevich, MD**. **Neural Therapy Workshops:** Oct. 5-7, 2018 Glen Head, New York.

Call 516-674-9489 or email [gurevichmd@gmail.com](mailto:gurevichmd@gmail.com) for further details and registration!

➤ **English MORA Power Week training** at Med-Tronik in Friesenheim, Germany, September 10-15, 2018. Contact OIRF or Med-Tronik for registration and details.

↻ The organizers of the Baden-Baden **Medizinische Woche** have announced the dates of their annual congress, but will not publish their active lecture schedule until May (later and later every year). To take advantage of their schedule and lecture series, following here are the dates of our **OIRF Germany Tour #45:**

- Medicine Week: October 31 through November 4, 2018
- OIRF Germany Tour #45: October 30 through November 5, 2018

This year, our theme or focus of interest will be **Complementary Diagnostic and Assessment Methods**. We are looking at those methods which are “real” and individualized as well as explanations about the effectiveness of causal diagnostics versus the now popular “global” diagnostics based on statistical analysis.

We are pleased to announce **Dietrich Klinghardt, MD** as our **Keynote Speaker** for this 45th Biological Medicine Group Tour to Germany. Dr. Klinghardt is a highly respected and well received participant of the annual Medicine Week Congress program, and we felt he would be able to speak (in English of course) in greater detail and without the North American constraints during our private lecture schedule. As well as our keynote speaker Dr. Klinghardt, here are some of the anticipated special features for Tour #45!

- **Clinic Lecture:** Integrative Cancer and Lyme Disease specialist – **Dr. Friedrich Douwes\***
- **Clinic Lecture:** Biological Medicine specialists using multiple modalities – **Dr. Uwe Reuter\*** and **Dr. Ralf Oettmeier\***
- **Clinic Visit:** A private Biological Medicine Clinic in Frankfurt, Germany
- **Advanced Medical Systems (AMS):** Pulsed Electromagnetic Field Therapy – **Dr. Frank Beck\***
- **Pharmacy Lecture:** RNA Therapy (Regeneresen®) – **Dr. Georg Stommel\***
- **Alfa Thermodiagnosics:** Regulation Thermography – **Dr. Dan Beilin**
- **Heart Rate Variability** (According to Nilas) – **Dr. Jürgen Aschoff**
- **Photon Resonance Test** (PRT According to Schimmel) – **Ute Engelhardt** and **Aina Sylvester-Schimmel**
- **Psychosomatic Energetics (PSE):** – **Dr. Reimar Banis**
- **MBA, ElectroAcupuncture According to Voll (EAV):** – **Knut Henning**
- **Med-Tronik:** BioResonance Therapy and Diagnostics – **Nuno Ruivo** and **Peter Mahr**
- Evening lectures, training sessions and discussions with attending OIRF directors and advisors

\* **Note:** Some of the above lectures are sponsored English language lectures that are part of the Medicine Week Congress program itself. The OIRF group has been invited to attend.

See full details here for the [Germany Tour](#) and [Register](#) early to ensure a place in this exclusive program – attendance is limited this year! You can whet your imagination by joining us in our [Report on Tour #43](#).

### **What others say about these tour programs:**

Dear Carolyn

Can I thank you once again for the wonderful Germany tour you arranged? It was one of the most informative weeks I have ever spent in Germany.

Recently, I have been reviewing the notes I have taken on OIRF tours going back twenty years. The amount of really useful information I have learnt, most of which I still use in my daily practice is truly staggering.

Thanks to you all once again. With Very Best Wishes,

Dr. Robert Jacobs, UK

(Dec. 2017 after Tour #44)

➡ OIRF has begun the process of updating and revising our website – this is a big project at the end of each year to make sure we are up to date and that the site is running smoothly. We ask your patience should you experience any glitches or disruptions – and if you see any little slipups or mistakes please let us know so that we can get them all fixed up.

➡ Note that OIRF is now able to accept your credit card payment directly in either USA or Canadian dollars and all pricing has been adjusted to reflect both currencies. Thank you for your continued business and support.

➡ I invite all of you to maintain your email or print subscription to “The Bridge” newsletter. All 2018 issues of “The Bridge” will be sent to you by email and then published on our website. **Access is open to all.** Follow this link to get your PDF print copy of “The Bridge” Volume 14, Issue #3.

Further new and cutting-edge articles from our prestigious Board of Advisors and Directors as well as more of Carolyn’s translations of articles from current German journals are underway for future Volume #14 issues of this newsletter. Issue #2 for 2018 should arrive in your Inbox during mid-February and will feature a variety of practical and educational articles.

### **Carolyn’s Comments:**

There has been a series of articles on BioResonance recently published in several of the German journals, and I will bring as many of them to you as possible. The author works with an alternate BioResonance device which is not recommended by OIRF. However, they claim to be “just like a MORA” or “better than MORA”, so obviously their information will easily apply to the original and classical BioResonance devices made by the Med-Tronik Company.

To reiterate from past Carolyn rants, our reasoning for maintaining our decades-long representation for MORA instead of the several other knock-off devices currently on the market, is the filter mechanism. The Med-Tronik pathological/physiological filter combines both electronic and biological components and remains the most effective BioResonance filter available (and of course it’s proprietary and patented to Med-Tronik!). All other so called BioResonance devices either employ only inversion of all frequencies, or, utilize an electronic only filter.

All applications described with the alternate devices are effective and accurate. They will, however be easily applicable with MORA and will likely take fewer treatments to see rapid effectiveness. If you have any questions or comments about your experiences with any of these BioResonance devices, please contact us directly.

## Metabolism

### Healing With Oscillations

# How BioResonance Therapy Helps in Metabolic Disorders

By Irisa S. Abouzari, BK

Metabolic illnesses or disorders comprise the most frequent problems which lead patients to the physician or naturopath. BioResonance Therapy offers a comprehensive approach to again bring the carbohydrate, fat, protein and mineral metabolism into balance and to relieve symptoms such as digestive problems, overweight, skin illnesses, sleep disturbances, diabetes mellitus or thyroid gland illnesses.

Everything in the universe oscillates – also our cells. Every organ has its own oscillation frequency and generates an electromagnetic field. According to the biophysicist **Prof. Fritz-Albert Popp** an overriding electromagnetic oscillation field steers all metabolic processes through so called biophotons.

Each cell filters the information matching to it out of innumerable information oscillations by working in resonance with the corresponding oscillation. Tens of thousands of biochemical metabolic processes are thus set in motion in every cell per second.

### **What is BioResonance?**

There are complex interactions between the electromagnetic fields of people, or also animals, and the electromagnetic radiations in their environment. In his best seller "The Wisdom of Your Cells", cell biologist **Bruce Lipton** writes: "*In the last fifty years hundreds of scientific studies have identified that these invisible forces from the electromagnetic spectrum have a profound effect on all biological control systems.*"

BioResonance therapists take advantage of this knowledge and lead the oscillations of the ill body regions of their patients through the electrodes into the BioResonance device. With the help of the apparatus the therapist can now deliberately change the disharmonic oscillation which makes the patient ill and for example strengthen or weaken it.

The new electromagnetic information is then transmitted to the patient through for example a modulations mat on the back. "*The body receives a stimulus when it goes into resonance with this healing oscillation*", explains the general physician and BioResonance expert **Dr. Jürgen Hennecke**. "*In this way the diseased disturbed oscillations can be weakened or cancelled, and also the healthy oscillations are supported and amplified. The change in the oscillation information in the body now influences the biochemical reactions at the metabolic level.*"

### **Holistic Search for the Cause**

BioResonance therapists consider their patients holistically and especially look for the cause of an illness. Thus numerous metabolic disorders are in connection with weakened detoxification organs otherwise burdened by heavy metals, bacteria or viruses. The focused support of endogenic detoxification processes activates the metabolism and stimulates the self-regulative forces in the organism of the patients.

**Sabine Rauch, MD** specialist in BioResonance, introduces physicians and naturopaths into the basics and intricacies of "BRT" in worldwide continuing education courses. Besides diagnosis and therapy with the help of the BioResonance device, the consultation with the patients about their experiences plays a great role for the therapy success: "*We want to help the patients at all levels. It also takes a lot to provide him with an insight about how important healthy nutrition and life-style are and that he must change something in his life if he would like to become healthy.*"

For example, diabetes mellitus is thus often accompanied by a high consumption of sugar and carbohydrate containing foods like wheat. Gout, also designated as a "prosperity disease" of the uric acid metabolism, can among other things be attributed to a strong meat consumption.

*“Perhaps less well known is that thyroid gland dysfunctions, especially Hashimoto-thyroiditis, an autoimmune illness of the thyroid gland, can be worsened by the consumption of gluten”, explains Dr. Rauch. “As a protein gluten has a similarity with the endogenic thyroid cells and every time when we consume gluten the body attacks its own thyroid cells.”*

**Figure 1**

The BioResonance device converts the oscillations which come through electrodes from the ill body regions of the patients. For example, it can thus strengthen or weaken them. However, a passive treatment of the patients alone is not sufficient in order to achieve a healing success. [Alternate image of MORA NOVA with Color Therapy shown.]

### **BRT – The Basic Procedure**

First the BioResonance therapist carries out a detailed anamnesis and then verifies the energetic basic status of the patients with kinesiology, with the help of Electro-Acupuncture according to Voll (EAV) or with the Biotensor, especially the functionality of the classical detoxification organs liver, gall bladder, bowel, kidney and bladder, lungs and skin. The lymphatic system is also considered because this plays an essential role in detoxification.

In the next step the therapist looks for further energetic blockages in the organism, for example in the vertebral or jaw areas, in the teeth or in scars. He additionally checks for geopathic burdens such as electrosmog or water veins. Traditional Chinese Medicine (TCM) with its meridian system or Ayurvedic Medicine with its Chakra system also offer the possibility to recognize and classify energetic blockages.

*“The strength which I see in the [BioResonance] device is that we use the patient’s own frequencies which we purposefully convert and then transfer not only the standardized frequencies as is widely used by some suppliers”, clarifies Dr. Rauch. “The possibility to fine-tune the frequencies individually for the patients in my experience makes the therapy especially efficient and lacking in side effects.”*

In the third step the therapist checks for incompatible foods, for example through samples brought [by the patient] or through ampules which contain frequency information for certain foods.

To support the diagnosis, use both the programs in the BioResonance device as well as the [homeopathic] test ampules which for example contain frequencies of allergens, pathogens or chemical burdens such as amalgam.

Even when the BioResonance is tuned individually to the patients, an indisputable component of the therapy is the test of the so called basic allergens like wheat, gluten, sugar, cow's milk protein or lactose, chicken protein and chicken egg-yellow. *"These are the basic foods which we designate as the greatest central allergens,"* explains Dr. Rauch. *"If you have an intolerance here, this disturbs the metabolism which can lead to a variety of physical complaints and even up to illnesses."*

### **Examples from the Practice: Hormones**

Metabolic problems can manifest in troublesome digestion problems with flatulence, abdominal fullness or diarrhea, which can be repaired relatively easily with the strengthening of the detoxification organs, a detoxification and the renunciation of the burdening foods.

For example, chronic thyroid illnesses or combined hormone and metabolic disorders are more complicated to treat. *"Nevertheless, here also BioResonance can report successes in that often the symptomatology of the patient improves and every now and then the medication dosages can be reduced,"* states Dr. Rauch.

Skin problems are holistically considered as a sign for the fact that other detoxification organs only function restrictedly. BioResonance therapists identify the burden and then purposefully treat it.

According to Dr. Rauch's observations stress is one of the biggest disturbance factors for health: *"With long-term stress the adrenal gland is always weaker and the endogenic cortisol production decreases. Cortisol has important effects on the immune system and also on other areas like for example the carbohydrate metabolism."*

At the same time, besides accompanying discussions and recommendation, special programs in the BioResonance Therapy can support the organism to harmonize its hormone system or to activate the adrenal glands.

### **Example from the Practice: Blood Sugar Level**

*Ursula Gerhard DVM* also observes how frequent stress tips the scales between health and illness. In 2004 the veterinarian treated the first cats with BioResonance. As more and more patients asked her for a treatment themselves, she completed her naturopathic license and soon opened her own naturopathic practice for people and animals with the main focus on BioResonance.

*“We nearly all have a high adrenalin distribution and thus a high blood sugar, but do not have the possibility of reducing the sugar level through self defense or running away like our ancestors the hunters and gatherers.”* In addition to the recommendation of easy relaxation exercises which can be built into everyday office life, Dr. Gerhard for example also gives her patients nutrition tips about bringing the carbohydrate metabolism or the acid-base-household into order again.

The therapist takes two drops of blood from the fingertip of her patients and with the help of the [*BioResonance*] device and well-chosen test sets, tests which test ampule the patient reacts to. During the anamnesis she also considers the school medicine diagnosis and which medications the patient is taking.

The test and treatment possibilities are varied. Dr. Gerhard then uses specific programs for carbohydrates, proteins and fats especially when she already has the suspicion of a metabolic disorder. *“The fat metabolism is often disturbed in overweight patients, because waste materials and toxins [from the digestive system] also accumulate in the fatty tissues. If I know that they eat a lot of wheat and sugar, at the same time I look at the distinctive features in the blood count, for example for a pancreas disorder.”*

The indications of an imbalance of the liver and with it an imbalance of the protein metabolism, are found among other things subject to the energetic laws of TCM: *“According to the Five Elements the “Spirit Poisons” of fury, annoyance and rage point to an imbalance in the Wood Element.”*

In addition to the focused oscillation therapy, for example with ear acupuncture by which the BioResonance device is connected to the ear with an attachment, Dr. Gerhard supports her patients with herbal mixtures self-made according to the Five Elements, with Bach Flower [*essences*] or with homeopathic remedies. Also sleep disturbances during the night between 1:00 and 3:00 AM according to the organ clock of TCM point to a liver burden and a disturbance of the protein metabolism.

*“If the liver is energetically disturbed in its function, this by no means says that school-medically viewed an illness is present,”* emphasizes the naturopath. As a rule the effect of the relief of the liver with the help of BioResonance Therapy is very pleasant for the patient,

who can then for example again sleep better through [*the night*] and emotionally viewed also feels well balanced.

### **Effect on Weight**

Even if an ailment with disease values leads most patients into the practice, falling pounds are often a pleasant side effect which accompanies the detoxification of the organism and the regulation of the metabolism.

However, weight problems as well as sleep disturbances, increased sweating, lighter growing hair, skin rashes and gastrointestinal problems can also point to a metabolism problem. *“Many patients increase [weight] because with everyday stress they eat irregularly or incorrectly, for example fast food,”* observes Dr. Gerhard. *“Often then the metabolism is already in a hunger state. Even if they maintain a two-month long diet and then again eat normally, they automatically increase.”* A yeast infection in the gastrointestinal tract as a result of excessive sugar consumption can also impair the absorption of vitamin and mineral substances with unpleasant side effects such as skin rashes, diarrhea and concentration problems, and thus indirectly influences the body weight: *“Then they can eat the best organic fruits and starve with full pots. They become fatter and fatter and more and more slagged [filled with waste products], but still they are malnourished with the vital substances.”*

According to Dr. Gerhard’s experience other factors that affect the body weight are change processes during menopause, thyroid gland problems and food intolerances. With obesity patients he supports the therapy success with close supervision. A massive weight loss, for example 10 of a planned 40 kilograms should be monitored professionally. Then possibly the dosage for blood pressure reduction or Thyroxin shortly no longer fits. Dr. Gerhard recommends with suitable suspicion, to visit their treating doctor to check and if necessary newly adjust the dose.

A huge advantage of the metabolism cures with the help of BioResonance Therapy in comparison to the methods in which drugs, homeopathic remedies, hormones or food supplement remedies are injected or are taken, the naturopath in that respect sees that BioResonance is a gentle method by which the point is leaving something out. As a result, the accompanying stimulation of the acupuncture points or the focused strengthening of the protein, fat, carbohydrate or mineral metabolisms with the help of well-chosen remedial oscillations supports the organism to find a new balance. Dr. Gerhard seldom observes the famous yo-yo effect: *“If the metabolism again functions well, in winter we can also take a few more biscuits and simply enjoy the tasty buffet during the party of our best friend.”*

## Conclusion

Complementary to school medicine the BioResonance Therapy thus offers a variety of possibilities to individually treat metabolic disorders. The health-supporting effect is so much stronger the more the patient is aware of the fact that it is not enough to be passively connected to the device and he also takes to heart the nutrition recommendations.

At the same time the device does not substitute for the therapist whose specialized knowledge combines with a holistic perspective of the patient, which makes the BioResonance Therapy a gentle, side effect free and long-lasting therapy method which offers solutions for many clinical pictures.

### Irisa S. Abouzari

After studies at the University of Cologne (in English studies, German studies and theater, film and television sciences), Irisa S. Abouzari acquired journalistic experiences with different daily newspapers and magazines, with WDR and with FAW among others. Through Tai Chi she became perceptive of the energetic legitimacy of Traditional Chinese Medicine energy teachings. As an active singer (among other things during several years in an A-Capella Quintet) her consciousness was awakened to the healing strength of oscillations. She was so fascinated by all that that she finished continuing education for Associated Kinesiology (BK), for Feng Shui consultant and for Healing Singing Practitioner.

For many years she is active as a journalist in the areas of holistic health, life help and spirituality and at the same time as a kinesiologist and holistic health consultant.

## Comments about Volume 14, Issue #1:

Dear Carolyn

For all your hard work in coming up with the article in your 1<sup>st</sup> issue of 2018....

Balance → Resonance → Bioresonance.

It is priceless.

It is difficult to get patients who come to my office to digest this concept because their failed attempts at getting better have all been with supplements. We speak a different language.

Gary Verigin, DDS, CTN

## The UBS 315 from Medical Electronics

**Energize water with this high tech miniature unit  
at your place of work or while travelling**

### **Starting the day full of energy**

All kinds of healthy teas whether it is herbal tea, green tea or white tea (which is the most beneficial) all develop a significantly better biological effect. This application is also very successful in improving the blood flow. Using a special blood test, dark field microscopy, the positive effect on the red platelets (erythrocytes) can be very graphically displayed.

See full details at [www.oirf.com/pdf/UBS\\_315.pdf](http://www.oirf.com/pdf/UBS_315.pdf)

### **It is important to drink water during the day**

There have been many reports about the importance of drinking water. As mentioned on previous pages there are vast differences regarding the water qualities which are available to us. Not everyone is fortunate enough to live next to a natural spring. Very few can afford glacier water. Based on biological evolution humans are made exactly for this type of water. Nature does not know about water pipes or plastic bottles. However, with the **UBS 315** unit it is possible to restructure this biologically lifeless water. Structured water is a special biological power source.

### **Photons carry information**

Photon penetrated water or other liquids carry the bioenergetic information before they are consumed. Bio energetic information can therefore be transferred to oneself without having to swallow anything. This is in particular a great advantage when bitter herbs or similar are involved. Like the ingredients of red wine (OPC) are active all the time while the glass is standing in front of you. Also crystals, or other effective information carriers like plant extracts dissolved in water, show remarkable results when used with the **UBS 315** unit.

## **The FIT 915 from Medical Electronics**

### **Light: Scientific research results confirm the importance of correct light conditions**

#### **Healthy with light**

The correct light at the right time; this leads to an outstanding potential of until now unused possibilities in energetic regeneration. Discoveries in the areas of photo-biology and chrono-biology reveal new and easy to use technologies within a wide ranging spectrum with effective application of light in a bio-energetic therapy.

**Light:** a phenomenon which has occupied human beings since ancient times. It is only now that we understand the enormity of the biological processes which are connected to this energy but which are still not fully understood. Only slowly is natural science recognizing how extremely important the interaction between biological processes in our bodies and the existence of the correct amount of light together with the correct spectrum range at the right time. In nature nearly all biological processes are synchronized by the light-dark phases of the natural sunlight.

### **White light, an important contributor to our health**

#### **Healthy and fit with correct light**

Is it possible to be put into a good mood and feel fit by pressing a button? Most probably! Our mood and health are primarily controlled by hormones. These hormones are mainly controlled by light which we absorb with our eyes. This knowledge opens up untold new possibilities to positively influence the body. New technology is making this possible now.

Astonishing results based on the study of light are gaining more and more importance. The natural science branch involved in researching this field is called chronobiology. Practical understanding in this field teaches us about the significance of the correct light at the right time. Important hormones for our health and well being are endorphins, dopamine and serotonin which are controlled by light. Their existence is the immediate reaction to the absorption of natural light or light with equal physical properties. The intensity and the spectrum play an important role. A specially important part of the daylight spectrum is the large proportion of blue light (450-480 nm).

### **Red light regenerates and repairs holistically**

#### **Optimal wave length for holistic regeneration of all eye functions.**

Scientific studies confirm that red light with a wave length of 630 nm offers maximum benefits for tissue regeneration. This wave length is also preferably used in photobiology to stimulate holistic body healing effects. Maximum depth penetration and optimal absorption guarantees the best possible treatment results, even in deeper skin tissue. This ensures that the eye itself and all linked supply systems are benefitting from the healing energy of the photons.

### **The brain needs the information provided by light to be able to cope with numerous tasks**

The light absorbed by our eyes is used by the brain for various tasks. Only about 15% of the light which the eyes absorb is used for orientation purposes. The remaining 85% are used in various parts of the brain. Circulation, metabolism, blood pressure, hormones and a whole range of other important functions are directly or indirectly dependent on the light absorbed by the eyes.

**Sunlight is variable and continually changes its brightness and color combination**

Starting at sunrise and through to sunset the sunlight spectrum arriving on the earth's surface is constantly changing. Since the beginning of time this dynamic light has nurtured all life on this earth. All living organisms have adjusted to this natural biologic rhythm and accepted it as the pacemaker for their inner life rhythm. Accordingly the hormone production is adjusted to the relevant time in the day because of the dynamic of light. Control of the complete hormonal balance can be lost if this dynamic is missing (night work/shift work).

**Artificial light sources create biologically unfavorable light**

Living areas and work places which are illuminated by artificial light sources induce a raft of problems of the inner synchronization to the outside world. Important wave lengths are missing in this light and it has a permanent unnatural color combination and brightness. The light flickers with toxic frequencies and transfers by plasma discharges of mercury gas corresponding spectral information via the eyes to our brain. Over time this can have disastrous consequences for our health.

**Modern Technology offers a solution**

Due to new developments in producing light we now have light sources (LED) with extreme brightness and an ideal spectrum at our disposal. With the modern high intensity LEDs it is now possible to produce light which is utilized by our organism like natural sunlight. The development of the light unit **FIT 915** fulfils all requirements which our organism needs from natural light.

The solution is the **FIT 915**

**Intensive white radiation 9,000-14,000 lux wavelength 400-700 nm**

**Intensive red light radiation 12,000-20,000 mc (12,000-20,000 lux) wavelength 630 nm**

## WEBINARS FROM MED-TRONIK!

Every two (2) weeks, Med-Tronik will be conducting a webinar on various subjects with application and function of the MORA® Nova. Each webinar will be approximately 30 minutes in length and will be in both German and English.

Click here for the German webinars: <http://www.med-tronik.de/academy/webinare.html>

And here for the English webinars: <http://www.med-tronik.de/en/academy/webinars.html>

Simply press the Register button and sign up. You will be sent a confirmation email, as well as a reminder closer to the date.

This is a terrific opportunity for you to receive ongoing education featuring some of the best and most famous instructors from Med-Tronik including **Dr. Nuno Ruivo**, **Dr. Peter Mahr** and even occasionally **Dr. Gottfried Cornelissen**. If the times don't work for you, don't worry, Med-Tronik will be archiving them so you can watch at your own convenience (or time zone).

Depending on time available, there may even be time at the end for a brief Q & A.

We look forward to you taking advantage of this terrific opportunity to get training on a regular basis. More topics will be available as time permits.

Be sure to save this to your "favorites" and join in regularly.

### English BioResonance Power Week: MORA® in Daily Practice

The BioResonance Power Week has been devised in order to facilitate our International customers in obtaining their MORA certification. This six-day long English language seminar will cover all standard seminars, Basic, Advanced and Masters.

**Carolyn's Comments:** In recent years we have watched some of our top rank Naturopaths going back to the books to prepare for the dreaded “prescribing exam”. Personally I wonder about why our NDs are being trained and examined to prescribe (allopathic) medications when as Naturopaths they would normally “prescribe” homeopathics, supplements, herbs, etc. On the other side of the coin we are seeing our homeopathics and natural remedies being taken off the market by Health Canada and the US FDA. Where can we now turn for remedies for our patients? Note that Sanum, Heel and other North American “discontinued” remedy companies are definitely licensed and included in the software above . . .

### OIRF Special Reports:

- 1) **Report on LM Potencies** (Homeopathy). Translated and prepared by **Dr. Walter D. Sturm** based on the work of **Dr. Samuel Hahnemann**. This is pivotal information for all homeopaths. In the last years of his life Dr. Hahnemann turned solely to the use of LM potencies for his patients instead of the "usual" C and X potencies still utilized today. This knowledge was suppressed for nearly 80 years and revolutionized the practice of homeopathy when that famous 6th edition of his Organon of Medicine was finally published. Read the story and see the meticulous research and translation left us by Dr. Sturm. See further information on this important report at this link. 51 Pages. \$40
- 2) Collection of **Three Reports by Dr. Gottfried Cornelissen** (BioResonance). 1) A Critical Examination of Current EAV Diagnosis (individual report below); 2) Increasing Efficiency of Allergy Cancellation Therapy by Application of Substance Specific Frequency Ranges; and, 3) The Problem of A and Inverted A in Homeopathic Nosodes (individual report below). 31 Pages. \$20
- 3) **The Problem of A and Inverted A in Homeopathic Nosodes** (BioResonance). Translated and prepared by **Dr. Walter D. Sturm** based on the research of **Gottfried Cornelissen, DMD**. Advanced BioResonance information. 4 Pages. \$5
- 4) **A Critical Examination of Current EAV-Diagnosis, the Mebe-Ampule and Filter Procedure** (EAV & BioResonance). Translated and prepared by **Dr. Walter D. Sturm** based on the research of **Gottfried Cornelissen, DMD**. Digital single point measurement according to Dr. Cornelissen. Advanced BioResonance and EAV-Diagnostic information. 14 Pages. \$10
- 5) **Transliterations of the Chinese Acupuncture Point Names with Explanations**. This is a supplement to the Modern & Traditional Acupuncture Program. Every single traditional acupuncture point is shown with the point name transliteration (with both new and old – Pinyin and Wade Giles – spellings) along with a full explanation. Translated by **Michael C. Barnett, DACu, LAc** from the work and research of **Jean-Claude Darras, MD**. 35 Pages (free to all M&TA program subscribers)
- 6) **The Genital System**. Translated by Carolyn L. Winsor; revised and edited by **Sean Christian Marshall, DSc** based on the work and research of **Jean-Claude Darras, MD**. Advanced traditional acupuncture information explaining the energetics of the genital system including disorders and treatment. 23 Pages. \$25
- 7) **A transcript of Dr. Morell's BioElectronic Vincent Lecture (BEV/BE-T-A)**. **THIS OFFICIAL TRANSCRIPT** of Dr. Franz Morell's 3-hour lecture is available from the Institute. It consists of thirty-one pages plus reproductions of his slides – it gives an excellent introduction to this objective bio-electronic testing method (BEV). Dr. Morell took us even further into the BIO-ELECTRONIC "VINCENT" Method during a subsequent seminar and introduced a totally new [at that time] German built instrument for it (by the Med-Tronik company, and Mr. Erich Rasche again!) to this country. \$15
- 8) See the OIRF [Archives Page](#) for past issues of "The Bridge" newsletter.

**And don't forget to order your copy of:**

### **The OIRF Special Report on Medication Testing**

A translation of Dr. Kramer's full medication testing guidelines from beginning to highly advanced aspects. Dr. Kramer has given us the most complete, step-by-step guidelines for learning medication testing on your own. Based on his seventeen years of practice and teaching, he also suggests the preparations you need to get started. Recommendations on how to order a set of those preparations for yourself are included within the report, and most are now included within the Electronic Remedy Test Sets Software. If you follow all of the report instructions, you will learn how to do medication testing by yourself, easily, quickly and correctly. If not, something is wrong with your Electro-Acupuncture instrument – not you!

This SPECIAL REPORT available in electronic or printed format for \$30.00  
(Report is over fifty pages. Preparations are not included.)

### **OIRF Video Training Programs:**

- 1) Diagnostics & Therapeutics Seminars by Dr. Walter Sturm<sup>†</sup>** (full set). Older seminar workshop where Dr. Sturm covered Diagnostic approaches (EAV, point and medication testing) and BioResonance Therapy approaches (MORA, Electronic Homeopathy and Remedy Information transfer). Five DVDs plus 1 disc with all overheads and handout materials. \$200
- 2) Biological Medicine Symposium 2012** (full set). Keynote speaker was Prof. Dr. Roeland van Wijk (colleague of Prof. Dr. Fritz-Albert Popp) specialist in BioPhoton light therapy, biophysical chemistry and molecular biology. 10 other well known complementary medicine practitioners, dentists and researchers. 12 DVDs plus Symposium Manual. \$100
- 3) How to Use the MORA III.** Dr. Walter Sturm<sup>†</sup> teaches how to use the MORA III unit for therapy and reviews the use of the RM200 diagnostic option. #35
- 4) Introduction to the MORA Super Plus and ELH.** Dr. Brian MacCoy<sup>†</sup> teaches how to hook everything up, how to get started, how to get set up with all the "goodies" that come with the device. \$35
- 5) How to Start Treating Patients with the MORA Super Plus.** Dr. Brian MacCoy<sup>†</sup> covers use of the Therapy Hand Book (applicable to all models of the MORA) as well as the basic electronic homeopathy applications. Here's how to set the device with the pre-set therapy programs. Get a good understanding of the scope and capability of these dynamic healing devices.
- 6) MORA Nova Training Seminar.** Dr. Nuno Ruivo (Med-Tronik). How to take the unit out of its shipping box and set it up. 3-part overview of BioResonance and patient simulations with emphasis on practical application in your practice. \$100
- 7) MORA BioResonance Therapeutic Possibilities.** Marguerite Lane, ND. How to get the best out of your MORA, how it works, and the basic concepts of classical BioResonance. Expert guidance on how to tackle the most common underlying problems in health. \$190
- 8) See ongoing training in Webinar** format from Med-Tronik.

## A Special Memorial Report

# The Ground Regulation System (GRS)

By o. Univ.Prof. Dr.rer.nat. med.habil. Hartmut Heine †

A few years after his serious illness in 2011 **Prof. Dr. Hartmut Heine** published a series of seven articles on the **Ground Regulation System**. I [*Carolyn Winsor*] was honored to be able to translate this incredible research into English for the first time and to publish it in our newsletter, "The Bridge".

As I worked my way through translation of the first article, the wealth of knowledge and understanding imparted in even that introductory article left me scrambling for dictionaries, research documents hidden away in the old OIRF library and way beyond "Google searches" to make sure that I was doing justice to the information Prof. Dr. Heine was imparting. Combined with the succeeding six further articles, his gift to us of knowledge and of understanding is truly priceless.

In respect for Prof. Heine I have merged those seven articles into one single report and have republished it separate from that older newsletter. With a total of 48 (mind-blowing) pages, this work is not just "worthwhile" reading, but mandatory reading for all practitioners of orthodox and complementary medicine. Available in electronic or print format for \$30, here is an outline of the contents:

- Part 1** – The Ground Regulation [A History and Background]
- Part 2** – GRS as a non-linear system – Structure, function and determined chaos
- Part 3** – GRS as a non-linear system– Structural components of the extracellular matrix (ECM)
- Part 4** – Spatial structure of the ECM and material transport within the system
- Part 5** – Contact, limitation and clogging up: Cell adhesion, basal membrane and glycosylation
- Part 6** – Functional relations of the ground regulation with the central nervous system
- Part 7** – The Ground Regulation and the Circadian Rhythm
  - The Ground Regulation and Alzheimer Dementia

### ➤ **OIRF Resource Materials:**

- For more information and instruction about point and medication testing with EAV see the OIRF: [Medication Testing Report](#) and the [EAV Desk Reference Manuals](#) (both available on disc).
- For more information and instruction about [Diagnostic and Therapeutic Techniques in Biological Medicine](#) with emphasis on BioResonance Therapy be sure to order the recently re-released videos of Dr. Walter Sturm's seminars.
- For a complete [listing of OIRF resource materials](#), including publications, reports, books and videos please follow this link to our website. There are full descriptions of all printed and recorded materials online.
- For a complete [listing of OIRF recommended instrumentation](#), including diagnostic, therapeutic and BioResonance devices please follow this link to our website. There are full descriptions of all instrumentation online.
- Of the three full "home-study" or "extension training" programs developed by Occidental Institute, two have been fully updated and are available in PDF format on disc. Research and publication of each of those programs has been pivotal in the development and application of Acupuncture and Biological Medicine in North America and around the world. Be sure to obtain your copies of these famous and well respected volumes for your library and study purposes.
  - Modern & Traditional Acupuncture: \$165
  - Master of Acupuncture Program: Translations of the ancient acupuncture classics (The Nei Ching consisting of the Su Wen and Ling Shu, as well as the "Difficult Classic" the Nan Ching) are still available in printed format – \$125
  - EAV Desk Reference Manuals, Parts 1 & 2 – \$200
  - Diagnostics and Therapeutics Seminars of Dr. Sturm – \$200

### **"EXTENSION TRAINING" PROGRAM IN MODERN & TRADITIONAL ACUPUNCTURE**

Over twelve hundred pages of printed materials incorporating applicable materials from the supplementary textbook ([An Outline of Chinese Acupuncture](#)) and set of four charts (by [China Cultural Corp.](#)). Program starts off assuming you know nothing about acupuncture (a good place to start even if only as a thorough review of the basics) and takes you right through to the most heavy-duty advanced aspects of true, 'energetical' acupuncture. The finest and most comprehensive material in the English language, covers all seventy-one meridians of traditional acupuncture; that 'missing sixty percent' of acupuncture knowledge most "acupuncturists" have never even heard of; and, the modern electronic 'needle-less' treatment methods (Electro-Acupoint Therapy) now so popular.

Over 3,000 students were originally enrolled in this famous Extension Training Program, and the OICS graduate listings read like a "Who's Who of Acupuncture" in the English speaking world. This program takes you as far as anyone possibly can in a 'written' format prior to the clinical finesse and practicum needed to round out your acupuncture study to professional levels.

#### **FULL THIRTY-THREE LESSON PROGRAM NOW AVAILABLE ON DVD**

**Price includes** disc with all 33 Lessons, applicable supplementary textbook ([An Outline of Chinese Acupuncture](#)) passages and representation of set of acupuncture charts (China Cultural Corporation set of four). [Current editions of the textbook and charts can be easily obtained from suppliers of acupuncture books and supplies.] Price does **not** include printed materials, binders; or, any tutorial, examination, or certification privileges. Follow above link for full details. **Full set on one disc available for CDN \$165.**

➡ **Updates, Reminders and Announcements:**

➤ Watch for seminar and conference updates. Plan early which events you will be attending this year.

➤ Watch for Volume 14, Issue #4 of the "The Bridge" newsletter to arrive in your Inbox in mid-April 2018. Anticipate an article from OIRF Board Advisor **Dr. Michael Galitzer**. There are a number of new and well written articles about BioResonance Assessment and Therapy that have been published in several of the German journals. Carolyn is busily translating as many of them as possible for future newsletter issues. Watch for news of new devices and interesting information gleaned during our Germany Tour travels.

➤ Visit our **Facebook** page – will you be our friend?

I trust you have found much of interest in these pages. During the 2018 winter and spring seasons we are looking forward to participating in numerous conferences while supporting various speakers and several complementary organizations. Additionally, there are a variety of informational articles being prepared for the next Issues of Volume 14 of "The Bridge". Electronic publication with access open to all will continue throughout 2018 and we will continue bringing you that cutting-edge information for which OIRF is famous.

We look forward to meeting you during our forthcoming 2018 activities and programs. As always, your comments are welcome. Remember that this is your newsletter. Your suggestions, article contributions, critiques, FAQ's and compliments are gratefully accepted.

Yours in health,

*Carolyn*
