ONDAMED

A Personalized and Non-Disease Label Approach to Improving Body Functions Versus Treating Disease

**By Rolf D. Binder, Inventor
And, Silvia Binder, ND, PhD**

© Copyright 2017, Dr. Silvia Binder, Schwanau, Germany and Cornwall, NY, USA

Summary:

Disease labels do not help us cure our patients. Imagine an approach that would rapidly allow you to find the hidden physiological and emotional cause of your patient's symptoms, while simultaneously stimulating your patient's nervous system with focused therapeutic electromagnetic fields. This is a non-invasive method to help you, the therapist, find the source of your patient's symptoms within minutes, while simultaneously treating and stabilizing your patient.

Overview:

The human body works on the basis of biophysics and biochemistry. While traditional medicine has much to offer in the chemical sense, it lacks the therapeutic approach of physics. Practitioners use the noninvasive ONDAMED technology and the biofeedback loop to scan the body for underlying dysfunctions, such as inflammation, infections, scar tissue and emotional trauma residing at a cellular level. These areas often prove to be the source of disease and symptoms that might be otherwise difficult to find. Identified areas are treated with focused pulsed electro-magnetic fields to stimulate tissue and the nervous system. Therapy with ONDAMED focused pulsed fields helps reduce local stress and improve metabolism and lymphatic flow resulting in reduced inflammation, pain and edema, while improving stress tolerance by reducing cortisol levels and by influencing the nervous system.

More specifically:

ONDAMED is very unique in its ability to deliver specific resonant frequencies to the source of illness. While other devices deliver either a pulsed electromagnetic stimulus to a symptomatic region in order to reduce pain and swelling or affect abnormal brain

electrophysiology, the ONDAMED approach is focused on what we discover about the illness and its location. Once discovery is completed, ONDAMED accurately delivers focused pulsed fields to the dysfunctional cellular/tissue areas which are found with the unique biofeedback loop.

ONDAMED's emotionally driven feedback helps locate the patient's weakened or dysfunctional areas such as inflammation, degenerated tissue or, even more critical areas linked to experienced traumas, residing at a cellular level. Traumas that reside on a cellular level often prove to be the primary cause of disease and dysfunction.

It is quite impossible for either the practitioner or the patient to find such areas by themselves. The solution is "Emotional Biofeedback", which an ONDAMED practitioner receives when stimulating the patient's nervous system with specifically selected pulsed fields at an area which may be linked to an either recent or even old physiological, mental, or emotional trauma.

It is thought that by stimulating areas connected with experienced traumas, the focused fields reanimate the areas' functions.

Reanimating these areas' functions may help patients resolve the secondary indication or symptom(s), for which the patients had originally come to seek help. ONDAMED may be considered a combination of "emotional feedback therapy" and "focused electromagnetic stimulus causing an induction within tissue".

Within minutes, the ONDAMED therapist finds the specific treatment stimuli for the patient, finds the actual location that is in most need to receive therapy and treats the discovered area by applying a systemic therapeutic stimulus. The stimulus energizes the flow of electrons across natural immune system inflammation barriers. These barriers are often undetectable or treatable in any other way, and include free radical scavengers.

When placing the nonintrusive applicator to a specific area, electrons and white blood cells are summoned to the area to start the repair process.

ONDAMED, therefore, jumpstarts the body's immune functions and directs the immune response to the area of dysfunction, which is often hidden or in "stealth mode" to the immune system. Cells and tissue in need of therapeutic stimulation can be oscillated by specific resonant frequencies selected from a wide range of 0.1 to 32,000 Hz. In standard electro-medical treatment, the tissue of least resistance will draw the current while potential dysfunctional tissue stays untreated.

ONDAMED applicators emit a focused field, which implements a vector driven current induction to access the tissue of dysfunction.

A vector driven current induction allows stimulation of tissue dependent on the position of the applicator rather than the tissue's structure.

Tissue vibration can enable detoxification of unwanted heavy metals, waste and toxins, potentially resulting in improved metabolic functions. Nutrients, remedies and supplements can then be assimilated by "cleaner" or detoxified tissue and cells.

The lymphatic system (an important part of the immune system) can also be stimulated. Toxins and waste can then be discharged by stool, urine, sweat and the release of fluid in certain areas.

One of the first effects patients usually notice is a general feeling of relaxation due to the influence of ONDAMED's resonant stimulus on the entire central nervous system, particularly when the therapy calls for frequencies in the delta and theta ranges.

ONDAMED's wide range of personalized frequencies enables the targeted therapy of a wide range of issues; often issues with difficult abnormalities otherwise going undetected.

After all, it is the specific tissue of the individual that we treat and not just a symptom or disease. The ONDAMED System enables the practitioner to draw upon four prepared Modules and each Module can be considered application specific.

Module 1: Selecting and using 2 specific pulsed fields relating to organs and organ systems

Module 2: Selecting and using 170 preset protocols to stimulate tissue with pre-programmed frequency combinations

Module 3: Selecting and using one (1) highly focused frequency to stimulate immune functions

Module 4: Selecting and using nutritionally related resonant frequencies.

From your research, you will find that the ONDAMED technology stands on its own due to its intelligence and personalization to each patient. The use of this 20+ year old invention allows the practitioner to obtain a larger diagnostic perspective of the patient complementing, yet going beyond standard diagnostics and offers the solution as to **where** treatment is needed on the body and **which** frequencies prove most significant for the patient.

The ONDAMED epigenetic impact is now being considered, and while we appreciate that no energy system or even medication can bring about a cure of any disease, ONDAMED shows that the body can effectively be stimulated to heal itself.

It has become recognized that the body's DNA, when fully able to express its protective (genes) mode by enabling the reduction of the excessive cellular histone acetylase DNA tightening, may become the 'holy grail' of healing most chronic diseases. Leading

scientists are now in hot pursuit to determine if biological energy healing will become the final answer to histone acetylase reduction.

A multi-disciplinary collaborative program between AlfaGene Bioscience Inc., NJ, the Department of Biology, City University of New York and the Ondamed Companies in New York and Germany is now underway to study bio-interactive mechanisms of ONDAMED's focused electromagnetic fields with cell and/or tissue types in the physiological and disease state. Modern bio-medical engineering tools, novel stem cell technology, sophisticated cellular, molecular, and genetic techniques are utilized in our studies. The results will be published in the near future.

Finally, ONDAMED encompasses the individual's specific needs at the time of discovery by finding the patient-specific treatment stimulus, the exact location that needs stimulation and non-intrusively delivers the stimulus during the same session, often providing immediate results.

ONDAMED is both practitioner and patient friendly. ONDAMED "a better way to make you better" couldn't be easier to learn and use.

We invite you to learn more about integrating ONDAMED into your daily practice life.

Practice Application:

ONDAMED

Focused Field Stimulation Combined with Biofeedback
From ONDAMED, Germany

The applied methodology with the ONDAMED System is founded on the basis of respect and honor for each individual life and the individual truth within each patient. The goal of ONDAMED's physiological treatment in using focused electromagnetic waves is to stimulate improvement of systemic functions as well as improving stress tolerance levels without connecting the patient to health hazardous induced labelling of diagnosis.

The ONDAMED is a combination of various philosophies and its frequency selections are based on ancient and pioneering Western and Eastern healing methods including Traditional Chinese Medicine, Ayurvedic Medicine, and Homeopathy.

A Visualization Software lets the patient visualize the frequencies in colors, providing color therapy at the same time the frequency stimulation takes place. The Software also allows for recording the information found on the patient, and printing the patient information sheet.

Humans are electromagnetic beings, and are receptive to electromagnetic vibrations. ONDAMED stimulation induces subtle current impulses in the body's fluids, organs, tissue, and cells. Our connective tissue, also

known as "the matrix", is our largest organ in the body. Connective tissue connects all cells and organs in the body.

The flow of electrons takes place in connective tissue. The perineural and perivascular system sits in organs, around muscles, bones and nerves. What takes place here may be compared to a semiconductor. Let's take the following example: Isolated areas in the body, such as inflammation, are collecting a different electrical potential widely known as the ph-level in the body.

Once the ph-level is outside the neutral range of close to ph7, it indicates an electrical potential of the isolated area. This potential has an electrical field, which influences the conductivity in the surrounding area – just as the gate does in a semiconductor.

The FIT 915 from Medical Electronics

Light: Scientific research results confirm the importance of correct light conditions

Healthy with light

The correct light at the right time; this leads to an outstanding potential of until now unused possibilities in energetic regeneration. Discoveries in the areas of photo-biology and chrono-biology reveal new and easy to use technologies within a wide ranging spectrum with effective application of light in a bio-energetic therapy.

Light: a phenomenon which has occupied human beings since ancient times. It is only now that we understand the enormity of the biological processes which are connected to this energy but which are still not fully understood. Only slowly is natural science recognizing how extremely important the interaction between biological processes in our bodies and the existence of the correct amount of light together with the correct spectrum range at the right time. In nature nearly all biological processes are synchronized by the light-dark phases of the natural sunlight.

White light, an important contributor to our health

Healthy and fit with correct light

Is it possible to be put into a good mood and feel fit by pressing a button? Most probably! Our mood and health are primarily controlled by hormones. These hormones are mainly controlled by light which we absorb with our eyes. This knowledge opens up untold new possibilities to positively influence the body. New technology is making this possible now.

Astonishing results based on the study of light are gaining more and more importance. The natural science branch involved in researching this field is called chronobiology. Practical understanding in this field teaches us about the significance of the correct light at the right time. Important hormones for our health and well being are endorphins, dopamine and serotonin which are controlled by light. Their existence is the immediate reaction to the absorption of natural light or light with equal physical properties. The intensity and the spectrum play an important role. A specially important part of the daylight spectrum is the large proportion of blue light (450-480 nm).

Red light regenerates and repairs holistically

Optimal wave length for holistic regeneration of all eye functions.

Scientific studies confirm that red light with a wave length of 630 nm offers maximum benefits for tissue regeneration. This wave length is also preferably used in photobiology to stimulate holistic body healing effects. Maximum depth penetration and optimal absorption guarantees the best possible treatment results, even in deeper skin tissue. This ensures that the eye itself and all linked supply systems are benefitting from the healing energy of the photons.

The brain needs the information provided by light to be able to cope with the numerous tasks

The light absorbed by our eyes is used by the brain for various tasks. Only about 15% of the light which the eyes absorb is used for orientation purposes. The remaining 85% are used in various parts of the brain. Circulation, metabolism, blood pressure, hormones and a whole range of other important functions are directly or indirectly dependent on the light absorbed by the eyes.

Sunlight is variable and continually changes its brightness and color combination

Starting at sunrise and through to sunset the sunlight spectrum arriving on the earth's surface is constantly changing. Since the beginning of time this dynamic light has nurtured all life on this earth. All living organisms have adjusted to this natural biologic rhythm and accepted it as the pacemaker for their inner life rhythm. Accordingly the hormone production is adjusted to the relevant time in the day because of the dynamic of light. Control of the complete hormonal balance can be lost if this dynamic is missing (night work/shift work).

Artificial light sources create biologically unfavorable light

Living areas and work places which are illuminated by artificial light sources induce a raft of problems of the inner synchronization to the outside world. Important wave lengths are missing in this light and it has a permanent unnatural color combination and brightness. The light flickers with toxic frequencies and transfers by plasma discharges of mercury gas corresponding spectral information via the eyes to our brain. Over time this can have disastrous consequences for our health.

Modern Technology offers a solution

Due to new developments in producing light we now have light sources (LED) with extreme brightness and an ideal spectrum at our disposal. With the modern high intensity LEDs it is now possible to produce light which is utilized by our organism like natural sunlight. The development of the light unit **FIT 915** fulfils all requirements which our organism needs from natural light.

The solution is the **FIT 915**

Intensive white radiation 9,000-14,000 lux wavelength 400-700 nm

Intensive red light radiation 12,000-20,000 mc (12,000-20,000 lux) wavelength 630 nm

Carolyn’s Comments: In recent years we have watched some of our top rank Naturopaths going back to the books to prepare for the dreaded “prescribing exam”. Personally I wonder about why our NDs are being trained and examined to prescribe (allopathic) medications when as Naturopaths they would normally “prescribe” homeopathics, supplements, herbs, etc. On the other side of the coin we are seeing our homeopathics and natural remedies being taken off the market by Health Canada and the US FDA. Where can we now turn for remedies for our patients? Note that Sanum, Heel and other North American “discontinued” remedy companies are definitely licensed and included in the software above . . .

OIRF Special Reports:

- 1) **Report on LM Potencies** (Homeopathy). Translated and prepared by **Dr. Walter D. Sturm** based on the work of **Dr. Samuel Hahnemann**. This is pivotal information for all homeopaths. In the last years of his life Dr. Hahnemann turned solely to the use of LM potencies for his patients instead of the "usual" C and X potencies still utilized today. This knowledge was suppressed for nearly 80 years and revolutionized the practice of homeopathy when that famous 6th edition of his Organon of Medicine was finally published. Read the story and see the meticulous research and translation left us by Dr. Sturm. See further information on this important report at this link. 51 Pages. \$40
- 2) Collection of **Three Reports by Dr. Gottfried Cornelissen** (BioResonance). 1) A Critical Examination of Current EAV Diagnosis (individual report below); 2) Increasing Efficiency of Allergy Cancellation Therapy by Application of Substance Specific Frequency Ranges; and, 3) The Problem of A and Inverted A in Homeopathic Nosodes (individual report below). 31 Pages. \$20

Every single traditional acupuncture point is shown with the point name transliteration (with both new and old – Pinyin and Wade Giles – spellings) along with a full explanation. Translated by **Michael C. Barnett, DAcu, LAc** from the work and research of **Jean-Claude Darras, MD**. 35 Pages (free to all M&TA program subscribers)
- 6) **The Genital System**. Translated by Carolyn L. Winsor; revised and edited by **Sean Christian Marshall, DSc** based on the work and research of **Jean-Claude Darras, MD**. Advanced traditional acupuncture information explaining the energetics of the genital system including disorders and treatment. 23 Pages. \$25
- 7) **A transcript of Dr. Morell's BioElectronic Vincent Lecture (BEV/BE-T-A)**. **THIS OFFICIAL TRANSCRIPT** of Dr. Franz Morell's 3-hour lecture is available from the Institute. It consists of thirty-one pages plus reproductions of his slides – it gives an excellent introduction to this objective bio-electronic testing method (BEV). Dr. Morell took us even further into the BIO-ELECTRONIC "VINCENT" Method during a subsequent seminar and introduced a totally new [at that time] German built instrument for it (by the Med-Tronik company, and Mr. Erich Rasche again!) to this country. \$15

A Special Report

The Ground Regulation System (GRS)

By o. Univ.Prof. Dr.rer.nat. med.habil. Hartmut Heine †

A few years after his serious illness in 2011 **Prof. Dr. Hartmut Heine** published a series of seven articles on the **Ground Regulation System**. I [*Carolyn Winsor*] was honored to be able to translate this incredible research into English for the first time and to publish it in our newsletter, "The Bridge".

As I worked my way through translation of the first article, the wealth of knowledge and understanding imparted in even that introductory article left me scrambling for dictionaries, research documents hidden away in the old OIRF library and way beyond "Google searches" to make sure that I was doing justice to the information Prof. Dr. Heine was imparting. Combined with the succeeding six further articles, his gift to us of knowledge and of understanding is truly priceless.

In respect for Prof. Heine I have merged those seven articles into one single report and have republished it separate from that older newsletter. With a total of 48 (mind-blowing) pages, this work is not just "worthwhile" reading, but mandatory reading for all practitioners of orthodox and complementary medicine. Available in electronic or print format for \$30, here is an outline of the contents:

- Part 1** – The Ground Regulation [A History and Background]
- Part 2** – GRS as a non-linear system – Structure, function and determined chaos
- Part 3** – GRS as a non-linear system– Structural components of the extracellular matrix (ECM)
- Part 4** – Spatial structure of the ECM and material transport within the system
- Part 5** – Contact, limitation and clogging up: Cell adhesion, basal membrane and glycosylation
- Part 6** – Functional relations of the ground regulation with the central nervous system
- Part 7** – The Ground Regulation and the Circadian Rhythm
 - The Ground Regulation and Alzheimer Dementia

"EXTENSION TRAINING" PROGRAM IN MODERN & TRADITIONAL ACUPUNCTURE

Over twelve hundred pages of printed materials incorporating applicable materials from the supplementary textbook ([An Outline of Chinese Acupuncture](#)) and set of four charts (by [China Cultural Corp.](#)). Program starts off assuming you know nothing about acupuncture (a good place to start even if only as a thorough review of the basics) and takes you right through to the most heavy-duty advanced aspects of true, 'energetical' acupuncture. The finest and most comprehensive material in the English language, covers all seventy-one meridians of traditional acupuncture; that 'missing sixty percent' of acupuncture knowledge most "acupuncturists" have never even heard of; and, the modern electronic 'needle-less' treatment methods (Electro-Acupoint Therapy) now so popular.

Over 3,000 students were originally enrolled in this famous Extension Training Program, and the OICS graduate listings read like a "Who's Who of Acupuncture" in the English speaking world. This program takes you as far as anyone possibly can in a 'written' format prior to the clinical finesse and practicum needed to round out your acupuncture study to professional levels.

FULL THIRTY-THREE LESSON PROGRAM NOW AVAILABLE ON DVD

Price includes disc with all 33 Lessons, applicable supplementary textbook (An Outline of Chinese Acupuncture) passages and representation of set of acupuncture charts (China Cultural Corporation set of four). [Current editions of the textbook and charts can be easily obtained from suppliers of acupuncture books and supplies.] Price does **not** include printed materials, binders; or, any tutorial, examination, or certification privileges. Follow above link for full details. **Full set on one disc available for CDN \$165.**

Continued . . .

➤ **Mayr Therapy:** This is a method that has been recommended by OIRF for many years. We have sponsored at least six official English language Mayr training programs in the past that featured the direct students of **Dr. F. X. Mayr**, including **Dr. Erich Rauch** and **Dr. Ernst Kojer**. In Austria this training was offered solely to MD's, but with the passing of many of the original practitioner/teachers those requirements have been somewhat relaxed. It was interesting to see both the two main Mayr organizations well represented at the Medicine Week Congress. Both organizations have been offering English language training and it is my pleasure to re-introduce this method to our members and supporters. Even though there are no commercial or financial ties between OIRF (and none of our Advisor/Directors are directly involved) and these Mayr organizations, we felt it important to continue our recommendation for this well proven and highly effective method.

This year the **VivaMayr** organization in **Maria Wörth, Austria** (oh, such a beautiful area!) is offering two programs in English which feature **Harald Stossier, MD**. Contact Kristen by email at kristen@viva-mayr.com for details and registration information. Courses available in Maria Wörth are:

- ~~Basic Intensive Course, I & II: Jan. 15-27, 2017~~ – COMPLETED.
- **Advanced Training II: July 23 to Aug. 4, 2017**

➤ **51st Medicine Week Congress.** Dates are **Oct. 28 through Nov. 1, 2017** in Baden-Baden, Germany with OIRF Advisors, Directors and Germany Tour participants attending. Usually more than 3,000 doctors participate with nearly 200 lectures, workshops and courses (German and English language). Exhibit area with more than 220 exhibits provides you with an excellent insight into the big product offerings in natural healing and complementary medicine. There you can find out directly, and compare. Contact OIRF for attendance possibilities.

➤ **Biological Medicine Tour #44 to Germany, October 26 through November 1, 2017.** Join us for our **44th** group tour including the world famous "Medicine Week" Congress in Baden-Baden. Tour program also includes exclusive OIRF English language lectures from renowned German clinicians and researchers as well as pharmacy and clinic visits. Speaker, event, itinerary and registration details are posted on our website.
